Culturally Considerate School Counseling Kim L. Anderson,2010-09-07 Cultural competence has become a standard for all health and mental health professions and is essential to work with diverse populations Expanding the definitions and experiences of culture this book takes a specifically compassionate and introspective approach to addressing the continued biases dividing our classrooms and schools explores how they manifest in this age of change and provides strategies for school counsellors and other professional helpers within school communities Twelve chapters grouped into four sections will 1 suggest new ways of considering student populations who may be seen even heard but seldom identified as needing unbiased help 2 provide culturally considerate ways of interfacing with families faculty administration and community 3 illustrate interventions via case vignettes and strategies from conventional and adjunct theories and 4 support the need for self reflection self care and professional growth of school counsellors social workers and psychologists Resources and useable references are also included The book culminates with a model for Culturally Considerate Counseling adapted from the author s work with veteran Corwin author Bonnie M Davis who also writes a compelling forward to the text

Integrating Spirituality into Multicultural Counseling Mary A. Fukuyama,Todd D. Sevig,1999-07-28 Fukuyama and Sevig have compiled a significant volume that underscores the importance of counselors addressing clients spiritual values and experiences in the context of providing culturally competent services One of the primary strengths of this book is that it is reader friendly as the authors are quite skillful in blending scholarly and personal perspectives throughout I would highly recommend this book to counselors supervisors academicians researchers and students who wish to expand their understanding of the impact of spiritual issues in the lives of culturally diverse clients Madonna G Constantine Columbia University Finally A book that examines the interface between spirituality and multiculturalism Mary Fukuyama and Todd Sevig have created a timely masterpiece that provides a holistic view of multiculturalism one that integrates spirituality into its fabric The authors appropriately cover less known spiritual paths such as Native American and Afrocentric perspectives The chapter on developmental models of the spiritual journey is especially useful to counselors and other helping professionals The authors also tackle the challenging question of positive and negative expressions of spirituality The self awareness questions in each chapter prompt readers to examine their own spiritual and multicultural experiences and beliefs

Numerous case examples stimulate helping professionals to grapple with realistic and multifaceted issues that their clients face. The integration of materials from diverse spiritual and multicultural perspectives makes this book a unique reference for anyone who is interested in this topic. As Fukuyama and Sevig note, spirituality is highly subjective and dynamic; their goal is to identify and explore good questions rather than propose definitive answers. The authors have succeeded in their goal. I highly recommend their book to counselors and all helping professionals for all counseling is multicultural and spirituality is an essential component of the human experience. Pamela Highlen, Ohio State University. In today's world, multicultural contact and the search for meaning go hand in hand. This book provides an overview of spiritual and multicultural processes that will challenge and energize professionals who desire to engage in the complexities of the postmodern world. The authors propose that integrating spiritual values into multicultural learning and exploring spirituality from multicultural perspectives are synergistic and mutually reciprocal processes. Chapter topics include understanding multicultural worldviews and developmental models of the spiritual journey; integrating spiritual and multicultural competencies; clarifying healthy and unhealthy expressions of spirituality; exploring spiritual issues expressed through pain and loss as well as needs for power and creativity; understanding counseling process issues including ethical concerns and integrating spiritual interventions into one's own counseling style.
