Sugar Workers:

Jamaica And The Sugar Worker Cooperatives Carl Henry Feuer, 2019-03-13 Between 1974 and 1977 as part of a wider attempt by Prime Minister Michael Manley's regime to carry out a democratic reformist strategy of development the three largest sugar estates in Jamaica were converted into worker managed farms Within a few years however the cooperative program was in disarray as the farms faced economic setbacks and as political conflicts developed among the sugar workers local authorities and the government Drawing on his extensive field research in Jamaica Dr Feuer traces the development and decline of the cooperative system and discusses the implications for the possibility of democratic reform In his view the logic of the cooperativization process conflicted with the priorities of the middle class which continued to dominate the Jamaican economy As a result the reforms were never firmly rooted in a political coalition with the resources to carry them out In light of the Jamaican experience Dr Feuer considers such questions as What are the obstacles a nonrevolutionary regime is likely to face in an effort to help the poor How feasible is it to mobilize the requisite political and administrative resources and neutralize the inherent constraints to reform *Sugar Act Extension, 1974* United States.
