Kevin E. Early

Suicide Of American Churches:

Religion and Suicide in the African-American Community Kevin E. Early, 1992-10-26 Suicide among African Americans occurs at about half the rate with which it occurs among white Americans Why is the black rate of suicide so much lower particularly when one considers the effects of racism and other socio economic factors on African Americans One answer that has been offered is that churches within the African American community have a greater influence than among white Americans and that they provide amelioration of social forces that would otherwise lead to suicide To date no other book has provided an in depth ethnographic study of the buffering effect of the black church against suicide Findings from Early s study indicate that there is a consensus within the black community in terms of its attitudes and beliefs toward suicide Early concludes that suicide is alien to underlying African American belief systems and a complete denial of what it means to be black This important study will be invaluable to sociologists and others studying contemporary race relations and social problems

The Sexual Politics of Black Churches Josef Sorett, 2022-02-08 Winner 2022 2023 Virginia Ramey Mollenkott Award for chapter 5 Everybody Knew He Was That Way Chicago s Clarence H Cobbs American Religion and Sexuality during the Post World War II Period by Wallace Best This book brings together an interdisciplinary roster of scholars and practitioners to analyze the politics of sexuality within Black churches and the communities they serve In essays and conversations leading writers reflect on how Black churches have participated in recent discussions about issues such as marriage equality reproductive justice and transgender visibility in American society They consider the varied ways that Black people and groups negotiate the intersections of religion race gender and sexuality across historical and contemporary settings Individually and collectively the pieces included in this book shed light on the relationship between the cultural politics of Black churches and the broader cultural and political terrain of the United States Contributors examine how churches and their members participate in the formal processes of electoral politics as well as how they engage in other processes of social

and cultural change They highlight how contemporary debates around marriage gender and sexuality are deeply informed by religious beliefs and practices Through a critically engaged interdisciplinary investigation *The Sexual Politics of Black Churches* develops an array of new perspectives on religion race and sexuality in American culture [Suicide Among Racial and Ethnic Minority Groups](#) Frederick T.L. Leong, Mark M. Leach, 2010-04-15 Suicide is increasingly understood and predicted as an intersection of biological psychological cognitive and sociocultural factors We have some basic knowledge of these factors and how they interact but presently we know very little about how culture can play a role as a variable that influences suicide *Suicide Among Racial and Ethnic Minority Groups* will go a long way towards filling that gap by pulling together cutting edge empirical research from general cultural diversity literature and applying it to suicide assessment treatment and prevention theory and practice By looking outside of the limited cross cultural studies done within suicidal populations the contributors all established experts in both multicultural counseling and suicidology expand the available empirical literature base in order to provide a deeper look into how culture can act as an important catalyst in suicidal intentions Following theoretical overviews the text focuses on six broad ethnic groups classified in the literature African American American Indian Asian American European American Hawaiian Pacific Islander and Hispanic with a main chapter devoted to each relating each culture to suicide research highlighting specific variables within the culture that can influence suicide and presenting appropriate treatment considerations A final section of the book consists of practical applications within specific settings therapy outreach schools psychiatric services and prevention and training issues **Why People Die by Suicide** Thomas Joiner, 2009-07-01 Drawing on extensive clinical and epidemiological evidence as well as personal experience Thomas Joiner provides the most coherent and persuasive explanation ever given of why and how people overcome life's strongest instinct self preservation [Suicide Across Cultures](#) Meryam Schouler-Ocak, Murad Moosa Khan, 2024-09-04 Over 700 000 people globally take their own lives every year which equates to one death by suicide every 40 seconds Among teenagers and young adults suicide is the second most common cause of death after road traffic accidents Overall almost three times as many men than women die by suicide There are however significant variations in the patterns of suicide across cultures gender age geographic locations and personal history due to the complex relationship of how these factors converge One thing that remains consistent is that every death is a tragedy for family friends and all colleagues Traditions of suicidal behaviour are deeply rooted in any given culture and so examining the cultural influences can be of paramount importance in the understanding and assessment of a suicidal crisis *Suicide Across Cultures* offers the opportunity to expand knowledge beyond majority groups and to look further than the dominant paradigm in suicide research treatment and prevention With the majority of global suicides taking place in non Western societies minority groups are an essential area in suicide research Written by experts from around the world this fascinating textbook includes topics and regions that are not usually covered in texts on suicide and self harm It provides a unique and important insight for
