Neumann,1983-12-21 Ornaments play an enormous role in the music of the seventeenth and eighteenth centuries and ambiguities in their notation as well as their frequent omission in the score have left doubt as to how composers intended them to be interpreted Frederick Neumann himself a violinist and conductor questions the validity of the rigid principles applied to their performance In this controversial work available for the first time in paperback he argues that strict constraints are inconsistent with the freedom enjoyed by musicians of the period The author takes an entirely new look at

ornamentation and particularly that of J S Bach He draws on extensive research in England France Germany Italy and the United States to show that prevailing interpretations are based on inadequate evidence These restrictive interpretations have been far reaching in their effect on style By questioning them this work continues to stimulate a reorientation in our understanding of Baroque and post Baroque music **Schenker Studies 2** Hedi Siegel,1999-04-22 Second volume of studies based on the work of Heinrich Schenker **The Musical Times and Singing-class Circular** ,1903 **Catalog of Copyright Entries** Library of Congress.
