Michael Green

Sukhoi Su24 Fencer Soviet Swingwing Bomber:

Sukhoi Su-24 Fencer E. Gordon, Yefim Gordon, Keith Dexter, 2005 The Fencer with its distinctive three position variable geometry wings is the Soviet counterpart to the American F 111 though somewhat smaller and lighter and to a lesser extent the Tornado Its origins certainly owed a lot to Soviet observation of the American TFX competition and the resulting swing wing variable geometry solutions First flown in 1971 it entered service from 1974 as a replacement for the Yak 28 and remains an important part of the Russian VVS inventory with several hundred having been in service It is able to carry a wide range of air to surface missiles and is capable of carrying out precision attacks in hostile airspace at night or during poor weather Much larger and more capable than previous Soviet aircraft it combines great penetrative ability with a heavy and varied bomb load but is such a versatile airframe that it has also been developed in various other versions including tactical bomber electronic warfare and reconnaissance As usual with the Aerofax series this book includes extensive detail of systems equipment weapons etc and a plethora of previously unpublished photographs and drawings 1988-1989 John Paxton, 2021-06-21 No detailed description available for 1988 1989 **Russia's Top Guns**, 1990 **Soviet V/STOL Aircraft** Michael J. Hirschberg, 1997 This important case study reports on the V STOL development activities in the Soviet Union As in the West the Soviets also began using flying test rigs in the late 1950s By combining the lift engines with modifications to existing engines the Soviets were able to deploy the Yak 38 Forger only two years after the Harrier The Forger was in service for 15 years before the political situation forced its retirement from service Packed with illustrations references glossaries and bibliographies this case study is a necessary resource for the studies of V STOL aircraft and systems designers **The Statesman's Year-Book 1989-90** J. Paxton, 2016-12-28 The classic reference work that provides annually updated information on the countries of the world *The Statesman's Year-Book 1983-84* J. Paxton, 2016-12-28 The classic reference work that provides annually updated information on the countries of the world *How the Helicopter Changed Modern Warfare* Walter Boyne, 2011-03-04 The helicopter was introduced to warfare during World War II Since then it has had a profound effect at both the tactical and strategic levels This in depth book by a military aviation expert examines the growth of the helicopter's importance in warfare and argues convincingly that severe flaws in the military procurement process have led to US troops using antiquated helicopter designs in combat despite billions spent on research and development The Statesman's Year-Book 1985-86 J. Paxton, 2016-12-27 The classic reference work that provides annually updated information on the countries of the world The Statesman's Year-Book 1982-83 J. Paxton, 2016-12-15 The classic reference work that provides annually updated information on the countries of the world Soviet Air Power of the Cold War Michael Green, 2023-04-06 a praiseworthy examination of the evolution of the Soviet air force throughout the Cold War Journal of Military History At the peak of the Cold War in the 1950s the Soviet Union possessed some 12 000 aircraft making it the largest air force of all the protagonists By the 1990s this had declined to around 8 000 the reduction largely reflecting

the increase in aircraft capability As well as fighters and bombers the Soviet inventory included trainers transports seaplanes electronic warfare and ground attack aircraft as well as an impressive helicopter fleet notably the Mi 24 Hind gunship and the massive Homer transport The Tu 4 Bull was the first Russian nuclear capable bomber a copy of the US B 29 which was followed by their range of jet bombers the Il 28 Beagle Tu 16 Badger and M 4 Bison The prop driven Tu 20 Bear and its successors including the Tu 22 Backfire and finally the Tu 160 Backfire were all formidable The jet engined MiG 15 fighter entered service in 1948 and proved itself during the Korean War The MiG 17 MiG 19 and MiG 21 followed Ground attack aircraft included the Su 7 Fitter and M 23 Flogger The 1970s saw the MiG 25 Foxbat interceptor followed by the MiG 29 Fulcrum and Su 27 Flanker coming into service All these aircraft and many more are authoritatively described and vividly illustrated in this comprehensive work
