A. Halikowski Smith, 2011-05-25 The Indian Ocean World was an idea borne out by researchers in economic history and trade in the 1980s in response to the compartmentalization of specific area studies within the wider rubric of Asian civilisations and culture Professor Kirti N Chaudhuri's books *Trading World of Asia and the English East India Company* 1978 and then *Trade and Civilization in the Indian Ocean* 1985 figured amongst the forefront of this new movement in historical thinking undertaking detailed historical analysis first of the English East India Company and then a comparative cultural history of Asian material life and civilisation Today historians continue to hold on to the idea of an Indian Ocean world although studies now follow a number of different threads from themes like linguistics and creolization to the seeds of national consciousness By presenting a number of studies here gathered into the themes of Intermixing The World of Trade and Colonial Paths it is hoped we can render tribute to one of the outstanding historians in this field and reflect the plenitude of current research in this subject area [The Tomb of the Mili Mongga](#) Samuel Turvey, 2024-02-15 The Tomb of the Mili Mongga lives up to its magnificent billing DAILY TELEGRAPH A fossil expedition becomes a thrilling search for a mythical beast deep in the Indonesian forest and a fascinating look at how fossils folklore and biodiversity converge A tale of exciting scientific discovery The Tomb of the Mili Mongga tells the story of Samuel Turvey's expeditions to the island of Sumba in eastern Indonesia While there he discovers an entire recently extinct mammal fauna from the island's fossil record revealing how islands support some of the world's most remarkable biodiversity and why many of these unique endemic species are threatened with extinction or have already been lost But as the story unfolds an unexpected narrative emerges Sumba's Indigenous communities tell of a mysterious wildman called the mili mongga a giant yeti like beast that supposedly lives in the island's remote forests What is behind the stories of the mili mongga Is there a link between this enigmatic entity and the fossils that Sam is looking for And what did he discover when he finally found the tomb of a mili mongga Combining evolution anthropology travel writing and cryptozoology The Tomb of the Mili Mongga explores the relationship between biodiversity and culture what reality means from different cultural perspectives and how folklore fossils and conservation can be linked together in surprising ways [Slavery and Bonded Labor in Asia, 1250-1900](#) , 2021-10-11 *Slavery and Bonded Labor in Asia 1250 1900* is the first collection of studies to focus on slavery and related forms of labor throughout Asia The 15 chapters by an international group of scholars assess the current state of Asian slavery studies discuss new research on slave systems in Asia identify avenues for future research and explore new approaches to reconstructing the history of slavery and bonded labor in Asia and by

The Making of a Periphery Ulbe Bosma, 2019-07-30 Island Southeast Asia was once a thriving region and its products found eager consumers from China to Europe Today the Philippines Indonesia and Malaysia are primarily exporters of their surplus of cheap labor with more than ten million emigrants from the region working all over the world How did a prosperous region become a peripheral one In *The Making of a Periphery* Ulbe Bosma draws on new archival sources from the colonial period to the present to demonstrate how high demographic growth and a long history of bonded labor relegated Southeast Asia to the margins of the global economy Bosma finds that the region s contact with colonial trading powers during the early nineteenth century led to improved health care and longer life spans as the Spanish and Dutch colonial governments began to vaccinate their subjects against smallpox The resulting abundance of workers ushered in extensive migration toward emerging labor intensive plantation and mining belts European powers exploited existing patron client labor systems with the intermediation of indigenous elites and non European agents to develop extractive industries and plantation agriculture Bosma shows that these trends shaped the postcolonial era as these migration networks expanded far beyond the region A wide ranging comparative study of colonial commodity production and labor regimes *The Making of a Periphery* is of major significance to international economic history colonial and postcolonial history and Southeast Asian history

The Slave Trade Hugh Thomas, 2013-04-16 After many years of research award winning historian Hugh Thomas portrays in a balanced account the complete history of the slave trade Beginning with the first Portuguese slaving expeditions Hugh Thomas describes and analyzes the rise of one of the largest and most elaborate maritime and commercial ventures in all of history Between 1492 and 1870 approximately eleven million black slaves were carried from Africa to the Americas to work on plantations in mines or as servants in houses *The Slave Trade* is alive with villains and heroes and illuminated by eyewitness accounts Hugh Thomas s achievement is not only to present a compelling history of the time but to answer controversial questions as who the traders were the extent of the profits and why so many African rulers and peoples willingly collaborated
