with a motorized camera to capture Los Angeles most iconic street Sunset Boulevard He created a time capsule of its famed facades beginning a sixty year long commitment to documenting the changing urban landscape of postwar Los Angeles The Streets of Los Angeles project that comprises these photographs is likely the most comprehensive artistic record of any city with over 900 000 images of major thoroughfares Ruscha's photographs constitute an unparalleled visual chronicle of both iconic and everyday sites in L A including popular music venues neighborhood restaurants and billboards promoting Hollywood's latest blockbusters In this volume scholars from disciplines such as urban planning cultural geography architecture art history and musicology explore the Streets of Los Angeles Archive as a rich repository for analyzing Ruscha's practice and the city's visual culture Using his photographs and new data visualizations the authors consider what it means to interpret an archive mostly accessible through digital technologies and they demonstrate how histories of art have been indelibly reshaped since the advent of the information age in the 1960s This publication was created using Quire™ a multiformat publishing tool from Getty The free online edition of this open access publication is available at www.getty.edu/publications/ruscha and includes video data visualizations and zoomable illustrations Free PDF and EPUB downloads of the book are also available
