The Concept of Freedom in the Writings of St. Francis de Sales Eunan McDonnell,2009 Through the examination of the concept of freedom in the writings of St Francis de Sales the author concludes that in contradistinction to a contemporary understanding of freedom perceived as self determination a Salesian understanding privileges freedom s relationship to the good This situates St Francis de Sales in the classical Thomistic tradition of freedom s necessary relationship to the good but involves a methodological shift as he employs the Renaissance starting point of the turn to the subject This study demonstrates how St Francis arrives inductively at what St Thomas demonstrated deductively namely the essential relationship of freedom to the good Along with this Thomistic influence the author analyses the Salesian indebtedness to Augustinian anthropology which explains the primacy St Francis gives to the will and consequently to love Love understood as the heart s movement towards the good allows the Salesian approach to move beyond the confines of a traditional faculty psychology to embrace a more biblical understanding of the

Retrieving Freedom D. C. Schindler, 2022-10-15 Retrieving Freedom is a provocative big picture book taking a long view of the rise and fall of the classical understanding of freedom In response to the evident shortcomings of the notion of freedom that dominates contemporary discourse Retrieving Freedom seeks to return to the sources of the Western tradition to recover a more adequate understanding This book begins by setting forth the ancient Greek conception summarized from the conclusion of D C Schindler s previous tour de force of political and moral reasoning Freedom from Reality and the ancient Hebrew conception arguing that at the heart of the Christian vision of humanity is a novel synthesis of the apparently opposed views of the Greeks and Jews This synthesis is then taken as a measure that guides an in depth exploration of landmark figures framing the history of the Christian appropriation of the classical tradition Schindler conducts his investigation through five different historical periods focusing in each case on a polarity a pair of figures who represent the spectrum of views from that time Plotinus and Augustine from late antiquity Dionysius the Areopagite and Maximus the Confessor from the patristic period Anselm and Bernard from the early middle ages Bonaventure and Aquinas from the high middle ages and finally Godfrey of Fontaines and John Duns Scotus from the late middle ages In the end we rediscover dimensions of freedom that have gone missing in contemporary discourse and thereby identify tasks that remain to be accomplished Schindler s masterful study will interest philosophers political theorists and students and scholars of intellectual history especially those who seek an alternative to contemporary philosophical understandings of freedom

The Fear of Freedom Rowan A. Greer, 2010-11 By the fear of freedom Greer means the unconscious flight from the heavy burden of individual choice an open society lays upon its members The miraculous represents a heavenly power brought down to earth and tied to the life of the community Understanding how miracles were perceived in the late antiquity requires us to put aside the notion of a miracle as the violation of the natural order Miracles for the church fathers refers to anything that evokes wonder Rowan Greer is not concerned with conclusions about the truth or falsity of the miracles reported in the ancient sources He is concerned with how the miracle stories shaped the way people understood Christianity in the fourth and fifth centuries Once the Church gained the predominance in the Empire as part of the Constantinian revolution most Christians thought that a new Christian commonwealth was in the making The miracles associated with the cult of the saints the martyrs and their relics in the

Christian Empire were part of this sacralization In the Roman imperial church we find a tension between the Christian message which revolved around virtue and the individual and corporate piety that focused upon the empowering of the people of God With Augustine we find Christian Platonism transformed into a new theology far more congruent with the corporate piety that had by then developed An emphasis upon grace and upon God s sovereignty fits a preoccupation with miracles better than the old emphasis upon human freedom and virtue and sets the stages for the Western Middle Ages and the cult of the saints organized and made central to Christian piety From a study of Roman imperial Christianity before the collapse of the West we discover the tendency to substitute one kind of freedom for another Freedom as the capacity of human beings to choose the good does not of course disappear but on the whole it is made subordinate to notions of God s sovereign grace and even to an insistence upon the authority of the church *The Divided States of America* Richard Land, 2011-01-11 Land looks at the separation of church and state what it is what it isn t and why it matters for the future of religion in America
