This is a rich collection of snapshots not only of people with AIDS but of the journey of their physician Scannell's need to write the stories of her patients is also shadowed by her knowledge that before she finished writing these stories she herself had been diagnosed with cancer Felice Aull Medical Humanities New York University Somewhere in the Introduction I was hooked and well before the end of the first chapter I was thanking heaven or at least my editor for my good luck to experience the remarkable characters who people this history of the early years of the plague Scannell is a writer The stories are stunning the lives they tell memorable and important Scannell knows just when to insert her own feelings and experiences in the narrative DOTGD is a remarkable book part history part memoir that reads with the grace and elegance of good fiction Scannell writes with wit and sensitivity Bay Area Reporter Her storytelling style allows the reader to put a face on the epidemic and give meaning to the statistics Journal of the Association of Nurses in AIDS Care Publication Originally published 1999 in paperback by Cleis Press then out of print Rights reverted to the author in 2010 when the book was released in electronic format It was back in print 2012 with photos added in 2018
