The New Pakistan:

The New Great Game Thomas Fingar, 2016-03-23 China's rise has elicited envy, admiration and fear among its neighbors. Although much has been written about this, previous coverage portrays events as determined almost entirely by Beijing. Such accounts minimize or ignore the other side of the equation: namely, what individuals, corporate actors and governments in other countries do to attract, shape, exploit or deflect Chinese involvement. *The New Great Game* analyzes and explains how Chinese policies and priorities interact with the goals and actions of other countries in the region. To explore the reciprocal nature of relations between China and countries in South and Central Asia, *The New Great Game* employs numerous policy-relevant lenses: geography, culture, history, resource endowments and levels of development. This volume seeks to discover what has happened during the three decades of China's rise and why it happened, as it did, with the goal of deeper understanding of Chinese and other national priorities and policies and of discerning patterns among countries and issues.

The Rise and Decline of the Insurgency in Pakistan's FATA Shahzad Akhtar, 2022-12-16 This book analyzes the emergence, rise and decline of insurgency by the Pakistani Taliban in Pakistan's North Western region, also known as Federally Administered Tribal Areas (FATA). It provides a detailed account of the rise and decline of the FATA insurgency and also examines aftereffects of the insurgency. Offering an in-depth analysis of how insurgency in the FATA began in 2004 after Pakistan entered its military forces into the tribal areas, the author illustrates that the insurgency erupted when state repression on masses is combined with a disruption of the previous *modus vivendi* centered on co-optation of local elites. In the following years, the insurgency became so powerful that most of the FATA region fell under the control of the insurgents. The book further argues that a weak counterinsurgency strategy by the Pakistani government, characterised by the overzealous use of force and a failure to win the support of local communities, led the insurgency to become stronger and expand its control. Furthermore, the analysis reveals that a more robust counterinsurgency strategy, relying more on a determined and a judicious use of force and attempts to gain the trust and support of local communities, adopted in the later years led to the collapse of the insurgency. In short, this book offers an explanation of what makes an insurgency more likely to occur and how insurgency escalates and declines. In addition, this book sheds light on recent development in FATA, including the merger of FATA with the mainstream Pakistan, the rise of the Pashtun Tahafuz Movement, a non-violent protest movement, and the resurgence of the Pakistani Taliban, especially after the Afghan Taliban capture of Kabul in the wake of US withdrawal of forces in Afghanistan. This book is a timely addition to the literature on South Asian Politics and Security Studies.

South Asia in the New World Order Shahid Javed Burki, 2011-03-24 Rapid changes have taken place in the structure of the global economy and this book looks at how South Asia can take advantage of these changes. The author argues that the developing global economy will be more complex than originally thought: that instead of a bipolar model with two countries, the US and China, at the centre, it will be multipolar with eight centres of economic activity, including India. The

book goes on to suggest that in the context of such a model there should be regional cooperation between India and its immediate neighbouring countries for South Asia to advance as an economic region. It argues that South Asia will need to look at its history and that changes in attitudes particularly in India and Pakistan are necessary. The possible benefits to the region in terms of increases in the rates of economic growth if the regional approach is adopted are discussed. The book presents a useful contribution to studies in South Asia as well as Asian Economics.

The New York Times Guide to Essential Knowledge, Second Edition The New York Times, 2007-10-30 Introducing a comprehensive update and complete revision of the authoritative reference work from the award winning daily paper this one volume reference book informs, educates and clarifies answers to hundreds of topics.

Pakistan's Nuclear Weapons Bhumitra Chakma, 2009 Pakistan is a vitally important country in the contemporary global political system. This book provides a comprehensive study of a nuclear armed Pakistan investigating the implications of its emergence as a nuclear weapons state.

Pakistan's Nuclear Policy Zafar Khan, 2014-07-17 In May 1998 in reaction to India's nuclear weapons tests Pakistan tested six nuclear weapons. Following this the country opted for a policy of minimum deterrence and within a year Pakistan had altered its policy stance by adding the modifier of minimum credible deterrence. This book looks at how this seemingly innocuous shift seriously impacted on Pakistan's nuclear policy direction and whether the concept of minimum has lost its significance in the South Asian region's changed strategic environment. After providing a brief historical background exploring why and how Pakistan carried out the nuclear development program the book questions why Pakistan could not sustain the minimum deterrence that it had conceptualized in the immediate aftermath of the 1998 test. It examines the conceptual theoretical framework of the essentials of minimum deterrence in order to question whether Pakistan's nuclear policy remained consistent with this as well as to discover the rudimentary factors that are responsible for the inconsistencies with regard to minimum deterrence conceived in this study. The book goes on to look at the policy options that Pakistan had after acquiring the nuclear capability and what the rationale was for selecting minimum deterrence. The book not only highlights Pakistan's deterrent force building but also analyzes closely Pakistan's doctrinal posture of first use option. Furthermore it examines the policy towards arms control and disarmament and discusses whether these individual policy orientations are consistent with the minimum deterrence. Conceptually providing a deeper understanding of Pakistan's post 1998 nuclear policy this book critically examines whether the minimum deterrence conceived could be sustained both at the theoretical and operational levels. It will be a useful contribution in the field of Nuclear Policy, Security Studies, Asian Politics, Proliferation, Non Proliferation Studies and Peace Studies. This book will be of interest to policy makers, scholars and students of nuclear policy, nuclear proliferation and arms control related research.

Pakistan Affairs, 1951

Explaining Pakistan's Foreign Policy Aparna Pande, 2011-03-16 Pakistan has over the decades become a hotbed for the terrorist ideology often referred to as Jihadism. This book investigates the underlying principles of Pakistan's foreign policy from 1947 until the present day and

explains the rise of Jihadism as an offshoot of Pakistan's security concerns. The book goes on to discuss that from its inception as a separate state, Pakistan's foreign policy focused on seeking parity with India and escaping from an Indian South Asian identity. The desire to achieve parity with its much larger neighbour led Pakistan to seek the assistance and support of allies. The author analyses the relationship Pakistan has with Afghanistan, United States, China and the Muslim world and looks at how these relationships are based on the desire that military, economic and diplomatic aid from these countries would bolster Pakistan's meagre resources in countering Indian economic and military strength. The book presents an interesting contribution to South Asian Studies as well as studies on International Relations and Foreign Policy. **Pakistan's**

Quagmire Usama Butt, N. Elahi, 2010-09-16 **Pakistan's Tactical Nuclear Weapons** Inderjit Panjra, 2018-01-01

Amidst many developments in the constantly evolving Indo-Pak conflict paradigm, the latest and perhaps the most intriguing has been the induction of Tactical Nuclear Weapons (TNWs) by Pakistan. While nuclear sabre rattling is not new to Pakistan's strategy, this time around there seems to be a strong pitch among security analysts to project these as the proverbial Brahmastra in its possession, foreclosing any sort of military retaliatory strike by India. This is significant at a time when sporadic Pakistan-sponsored terror attacks on Indian soil continue unabated. For the Indian security analysts, this raises some pertinent questions: Is the threat of TNWs credible enough to deter India from launching a suitable military response to a Pakistan-supported terror attack? Does induction of TNWs by Pakistan materially alter the Indo-Pak nuclear balance and consequently the direction any future conflict may assume? What are the response options for India to retain, restore the nuclear as well as overall security balance? This book is an endeavour to find answers to all these. In the process, the author attempts to explore how the two protagonists view nuclear deterrence, what is the relevance of nuclear weapons for both of them, how are the fundamental drivers of the ongoing conflict and the ever-changing dynamics and influences in the region affecting it. Using these parameters and the technical capabilities of TNWs believed to be held by Pakistan, the author constructs five possible scenarios for the foreseeable future. The outcome is interesting as it answers the fundamental question: are Pakistan's TNWs indeed the game-changer they are being touted as, or are we giving the devil more than his due?
