The New Religious World Religions Of The World S:

The World's Religions Peter B. Clarke, Peter Beyer, 2009-05-07 This comprehensive volume focuses on the world's religions and the changes they have undergone as they become more global and diverse in form. It explores the religions of the world not only in the regions with which they have been historically associated but also looks at the new cultural and religious contexts in which they are developing. It considers the role of migration in the spread of religions by examining the issues raised for modern societies by the increasing interaction of different religions. The volume also addresses such central questions as the dynamics of religious innovation which is evidenced in the rise and impact of new religious and new spirituality movements in every continent.

The World's Religions in Figures Todd M. Johnson, Brian J. Grim, 2013-03-25 Created by two of the field's leading experts, this unique introduction to international religious demography outlines the challenges in interpreting data on religious adherence and presents a contemporary portrait of global religious belief. Offers the first comprehensive overview of the field of international religious demography, detailing what we know about religious adherents around the world and how we know it. Examines religious freedom and diversity, including agnostics and atheists on a global scale, highlighting trends over the past 100 years and projecting estimates for the year 2050. Outlines the issues and challenges related to definitions, taxonomies, sources, analyses, and other techniques in interpreting data on religious adherence. Considers data from religious communities, censuses, surveys, and scholarly research, along with several in-depth case studies on the global Muslim population, religion in China, and the religious demography of recently created Sudan and South Sudan. Argues against the belief that the twentieth century was a secular period by putting forward new evidence to the contrary. Provides resources for measuring both qualitatively and quantitatively important data on the world's religious situation in the twenty-first century.

The World's Religions Peter Clarke, Friedhelm Hardy, Leslie Houlden, Stewart Sutherland, 2004-01-14 Gives an account of the history, the theological basis, the practice, and the current state of the study of religion and religions throughout the world. Combines a clear and non-technical style of presentation with a structure and range of contributions which reflect the richness and complexity of religion itself, of the religions of the world, and the study of religions. Comprehensive index, bibliographies, and suggestions for further reading. Intriguing philosophical questions are raised about the nature of religion and the qualities needed for studying it. Times Higher Education Supplement: Excellent book, remarkably successful, impressive as much for the sheer scale of the undertaking as for its consistent standard of analysis. It is a fine achievement which will serve both as a very suitable textbook for students and a reliable guide to the state of scholarship in the History and Study of Religions. Heythrop Journal.

The World's Religions after September 11 Arvind Sharma, 2008-11-30 This set is an unprecedented examination of religion's influence on modern life, an honest assessment of how religion can either destroy us or preserve us, and a thorough exploration of what steps might be necessary for all religions to join together as a force for good. Convening on the fifth anniversary of the terrorist attack on the World

Trade Center the global congress The World's Religions after September 11 explored the negative and positive possibilities of the religious dimensions of life The presentations from the congress have been pulled together in this set which addresses religion's intersection with human rights spirituality science healing the media international diplomacy globalization war and peace and more This comprehensive set includes contributions from such well known scholars of religion as Arvind Sharma and a host of others from all the world's religious traditions This set is an unprecedented examination of religion's influence on modern life an honest assessment of how religion can either destroy us or preserve us and a thorough exploration of what steps might be necessary for all religions to join together as a force for good Because of the attack on the World Trade Center on September 11 2001 the very concept of religion underwent a paradigm shift Instead of standing for virtue and piety peace and harmony the word religion also came to be inextricably associated with evil aggression and terror People around the world began to question whether the religious and secular dimensions of modern life can be reconciled whether the different religions of the world can ever coexist in harmony Indeed the very future of religion itself has sometimes seemed to be uncertain or at least suspect
