Transkei Independence South Africa. Embassy. United States, 1976 **Struggles for Self-Determination** Josiah Brownell, 2021-12-02 Katanga Rhodesia Transkei and Bophuthatswana four African countries that though existing in a literal sense were in each case considered by the international community to be a component part of a larger sovereign state through which all official communications and interactions were still conducted This book is concerned with the intertwined histories of these four right wing secessionist states in Southern Africa as they fought for but ultimately failed to win sovereign recognition Along the way Katanga Rhodesia Transkei and Bophuthatswana each invented new national symbols and traditions created all the trappings of independent statehood and each proclaimed that their movements were legitimate expressions of national self determination Josiah Brownell provides a unique comparison between these states viewed together as a common reaction to decolonization and the triumph of anticolonial African nationalism Describing the ideological stakes of their struggles for sovereignty Brownell explores the international political controversies that their drives for independence initiated inside and outside Africa By combining their stories this book draws out the relationships between the emergence of these four pseudo states and the fragility of the entire postcolonial African state structure

Press Clips , 1990-04 **Exploitation and Misrule in Colonial and Postcolonial Africa** Kenneth Kalu, Toyin Falola, 2018-10-08 This book offers new perspectives on the history of exploitation in Africa by examining postcolonial misrule as a product of colonial exploitation Political independence has not produced inclusive institutions economic growth or social stability for most Africans it has merely transferred the benefits of exploitation from colonial Europe to a tiny African elite Contributors investigate representations of colonial and postcolonial exploitation in literature and rhetoric covering works

from African writers such as Ngugi wa Thiong'o, Kwame Nkrumah and Bessie Head. It then moves to case studies drawing lines between colonial subjugation and present day challenges through essays on Mobutu's Zaire, Nigerian politics, the Italian colonial fascist system and more. Together these essays look towards how African states may transform their institutions and rupture lingering colonial legacies.

Religions of South Africa (Routledge Revivals) David Chidester, 2014-06-27. First published in 1992, this title explores the religious diversity of South Africa, organizing it into a single coherent narrative and providing the first comparative study and introduction to the topic. David Chidester emphasizes the fact that the complex, distinctive character of South African religious life has taken shape with a particular economic, social and political context, and pays special attention to the creativity of people who have suffered under conquest, colonialism and apartheid. With an overview of African traditional religion, Christian missions and African innovations during the nineteenth century, this reissue will be of great value to students of religious studies, South African history, anthropology, sociology and political studies.
