The Nicene Creed Illumined By Modern Thought:

The Nicene Creed, Illumined by Modern Thought Geddes MacGregor, 1980 The Nicene Creed, Illumined by Modern Thought Geddes MacGregor, 1980 *Clues to the Nicene Creed* David E. Willis, 2005 This is a print on demand book and is therefore non returnable The Nicene Creed s powerful summary of Christian faith has stood the test of time embodying core truths and distinguishing essential core truths and distinguishing essential Christian teachings from those of lesser importance As respected thinker and educator David Willis explores the Nicene Creed in this new book he provides clues for meaningfully interpreting this most ecumenical of church creeds in the twenty first century Writing especially for educated laypeople advanced students and theological educators Willis eloquently links the ancient creed to life today As he points out faith is constantly taking different shapes within broad boundaries like the creed s statement of faith with analogies drawn from such diverse areas as architecture graphic art poetry sculpture and psychological theory Those seeking to delve into the creed or to deepen a lifelong encounter with it will be enriched by Willis s reflections **The Living Church** , 1981 A Thematic Access-Oriented Bibliography of Jesus's Resurrection Michael J. Alter, 2019-12-31 The keystone of Christianity is Jesus s physical bodily resurrection Present day scholars can be significantly challenged as they forage through voluminous documents on the resurrection of Jesus The literature measures well over seven thousand sources in English language books alone This makes finding specific sources that are most relevant for specific scholarly purposes an arduous task Even when a specific book is relevant finding the parts of the book that are most relevant to the resurrection rather than other topics often requires additional effort A Thematic Access Oriented Bibliography of Jesus s Resurrection addresses these challenges in several ways First the bibliography organizes more than seven thousand English sources into twelve main categories and then thirty four subcategories which are designed to help you find the most relevant literature quickly and efficiently Embedded are pro and con arguments which support efficient access through brief annotations and then annotate the diversity and complexity of the field of religion by including sources that represent a diverse range of views theistic e g Christian Jewish Muslim etc agnostic and nontheistic The objective of this bibliography is to provide convenient access to relevant sources from a variety of perspectives allowing you to browse or find the one source accurately and with ease **Reincarnation as a Christian Hope** Geddes MacGregor, 1982-06-18 **Christianity for Seekers and Skeptics** Clinton W. McLemore, 2024-11-14 What is the difference between belief and faith Are science and religion incompatible How much do we know about Jesus Why does God keep us so much in the dark How much can we trust the Bible especially when the New Testament is two thousand years old and the Old Testament even older Has Christianity helped or hindered civilization What about violence in the name of Christ Why does God allow suffering and tragedy Does religious faith even make sense Christianity for Seekers and Skeptics is for those in search of passionate faith that also holds up under careful scrutiny It is also for Christians who want better to understand the foundations of their faith and how to respond when others

challenge it The author is an award winning psychologist who has taught at the college and university levels He has also taught in a doctoral clinical training program at a seminary This wide ranging volume reflects decades of multi disciplinary study It is a refreshingly honest approach to questions about Christian beliefs and how someone in the twenty first century can think critically and also have strong faith This is a no nonsense presentation of Christianity that tackles the hard questions head on God, Time, and the Incarnation Richard A. Holland Jr.,2012-02-20 The dominant view among Christian theologians and philosophers is that God is timeless that he exists outside of time in an atemporal eternity In God Time and the Incarnation Richard Holland offers a critical evaluation of this traditional view in light of the most central doctrine of Christianity the Incarnation of Christ Holland reviews the history of this controversy highlighting the various theological problems for which atemporal models have been offered as a solution He asserts the central importance of the Incarnation for Christian theology and evaluates several atemporal models in light of this doctrine Finally he suggests that the traditional atemporal view is not compatible with a robust and orthodox view of the Incarnation This book rejects the traditional atemporal view of God s relationship to time and argues based on the Incarnation that God experiences temporal sequence in his existence **Participating in Worship** Craig Douglas Erickson,1989-01-01 Transcending the common distinctions between high church low church and formal informal this book argues for a balance in the patterns and various levels of worship participation giving all Christians a fresh look at worship as a whole Craig Erickson discusses the elements of participation in detail setting historical and theological insights within a comprehensive theory of liturgical participation He enables students ministers and congregations to understand the historical significance of the elements of worship and offers useful suggestions for strengthening Christian worship **Theology Without Boundaries** Carnegie Samuel Calian,1992-01-01 In this book Carnegie Samuel Calian who was baptized in the Eastern tradition and raised a Protestant promotes greater dialogue and exchange among Christians of the East and West He seeks to make Christians aware of the diversity of faith and offers suggestions and insight to this end
