Provides an overview of theoretical work and the theoretical informed competencies which are central to the teaching of English Renaissance literary studies beyond Shakespeare Provides a map of the critical landscape of the field to provide students with an opportunity to appreciate the breadth of the work done Features newly commissioned essays in representative subject areas to offer a clear picture of the contemporary theoretically engaged work in the field Explores the ways in which the treatments of or approaches to key issues have changed over time Offers examples of the ways in which the practice of a theoretically engaged criticism may enrich the personal and professional lives of critics and the culture in which such critical practice takes place The Cambridge Introduction to Modernism Pericles Lewis, 2007-05-03 Publisher description **Approaches to Teaching Pound's Poetry and Prose** Demetres P.
