Virtually Everything Heron House, Richard M. Scammon, 1981-11-01 *Daddy was a German Spy* Brian Edwards, 2008-09-29 This engaging memoir covers the first 25 years of Brian Edwards' life in Northern Ireland during the 1940s and 1950s His father abandoned his wife and son in dramatic circumstances when Brian was still a baby He grew up in lodgings often cared for by landladies who were mad bad or simply sad while his mother was at work In his early teens Brian desperately tried to track down his mysterious father but to no avail Years later he discovered that he had at least one half sister and that his father may well have been a German spy a bigamist and a charming con man who embezzled funds from numerous employers While Brian's relationship with his parents and their extended families lies at the heart of this book *Daddy was a German Spy* is also a funny poignant and intriguing story about growing up in Northern Ireland *Ghosted!* Brian Laythe,, James Houran, Neil Dagnall, 2022-07-19 Reports of paranormal experiences vary tremendously but are often associated with ghosts haunted houses and otherwise eerie circumstances There exist both classic and modern texts on ghosts and haunted or possessed people places and spaces many discuss traditional ideas regarding such phenomena or utilize now outdated research in highly academic and technical ways This book offers a very different approach in reviews provided by a leading edge research program devoted to who has ghostly experiences and why With new insights both global in scale and multidisciplinary in scope this collaboration by five researchers uncovers consistent evidence that anomalous experiences represent a very real Haunted People Syndrome a term describing anomalous experiences that manifest recurrently to the same percipients and are interpreted as ghostly with implications for future research across academia The

participation of new citizen scientists the field investigators and researchers among us is invited in furthering the exploration of paranormal mysteries Photos and figures illustrating concepts and models are included as is a glossary *Teaching Decision Making To Adolescents* Jonathan Baron,Rex V. Brown,2012-11-12 This book describes a variety of programs firmly based in psychological theory and modern decision analysis that are suitable for teaching adolescents how to improve both their own decision making skills and their understanding of the decision making of others Providing practical advice as well as theoretical analysis this volume addresses general questions such as the nature and rationale of the enterprise its implementation and its evaluation Relevant to several current adolescent problems including drug abuse this is an excellent source either as research new curriculum or enrichment of old curriculum **The Practical Guide to Practically Everything** Peter L Bernstein,Peter W. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
