Development of control concepts for improved driving dynamics of harvesting machines with large headers Benedikt Jung, 2018-06-27 This book examines the driving dynamics of harvesting machines with large harvesting heads It looks at how to efficiently use these machines The author explores a common problem that hinders machine performance when harvesting with very large headers He deals with concepts for reducing the undesired effects of vehicle dynamics when using these machines With the steadily increasing capacity of harvesting machines the working widths of the harvesting heads get wider and the headers get heavier It has become essential with these giant headers to use header height sensors and header control systems to avoid the headers from being run into the ground when encountering

elevation changes in the terrain A fundamental limitation of the viable speed of header height adjustments arises from the combination of the wider and heavier headers with soft agricultural tires The current solution to find an appropriate speed of header height adjustments is to perform a header calibration whenever a new header is attached to the machine and to endow the machine operator with the capability to tweak the speed of adjustments manually The result of an inappropriate speed of height adjustments is a reduction in overall productivity and an under utilization of the harvesting machine The author looks at ways to prevent this He offers detailed modeling of the vertical dynamics including dynamic wheel loads In addition the book contains results from simulations and machine tests      *Under The Harvest Moon* Gary Blinco,2015-01-29

A shadowy form moved in a crouch along the creek bank a stout club upraised and silhouetted against the sparkling surface of the stream It approached the forms of the man and the woman as they lay quietly on the rug in the moonlight near the water s edge The woman s head rested on the man s chest as he lay on his back as if in a deep sleep The blows from the club came quickly and viciously crushing the flesh and bone of the man s head and face and then the blows fell about the woman s head She did not stir as her head exploded like a ripe melon She fell sideways away from the man under the force of the attack her matted hair gleaming wetly in the moonlight The stillness of the night was broken by the eerie sounds of the bush the lazy honking of the wild ducks the croaking of the frogs and the mopokes and the laboured breathing of the attacker The figure tossed the club into the creek before splashing into the water and swimming strongly to the far side Then it left the stream and moved briskly along the opposite bank heading north towards the bush track that passed by Brinkley s cottage In this his third novel Gary Blinco paints a graphic picture of coun try life as family conflict romance and murder unfold on the Darling Downs in a time of challenge and change during the first bulk wheat harvest in 1957 This book provides an entertaining read and works on three levels as history romance and mystery all in a competent way      *Harvesting in the "Big Wheat Belt."* Employment Service,1924      *Harvesting in the "Big Wheat Belt."* United States Employment Service,1929
