Hafez, 2007 The war in Iraq was supposed to be easy Instead it has delivered the message that Islamic resistance and martyrdom can defeat the only remaining superpower just as jihadists drove the Soviet Union from Afghanistan during the 1980s Now a haven for jihadists Iraq has entered a civil war whose duration scope and magnitude have yet to be determined The overwhelming majority of suicide attacks in Iraq have targeted Iraqi security forces and Shia civilians not coalition forces The perpetrators appear to be largely non Iraqi volunteers Many are from Saudi Arabia but substantial numbers have come from Europe Syria Kuwait Jordan and North Africa They are foiling U S plans to

stabilize the country and turn it into a democratic regime and an ally in a region of religious radicalism entrenched authoritarianism and hostile states with nuclear ambitions Understanding the phenomenon of suicide bombing in Iraq is therefore vitally important for U S national security foreign policy in the Muslim world and the war on terrorism This study the first of its kind on the Iraqi insurgency draws extensively on open source intelligence and papers of record primary sources from insurgent groups including online documents and videos and interviews with U S servicemen who have served in Iraq It examines the history of suicide bombing in Iraq and many other countries theoretical perspectives on suicide bombing the varied factions that comprise the insurgency the ideology and theology of martyrdom supporting suicide bombers their national origins and characteristics and the prospects for a third generation of transnational jihadists forged in the crucible of Iraq
