The Heart of the Question Howardena Pindell, 1997 **Howardena Pindell** Sarah Louise Cowan, 2022-01-01 Exploring the art and life of this important American artist whose work bridged the gaps between abstraction feminism and Blackness Howardena Pindell Reclaiming Abstraction is a fascinating examination of the multifaceted career of artist activist curator and writer Howardena Pindell b 1943 It offers a fresh perspective on her abstract practice from the late 1960s through the early 1980s a period in which debates about Black Power feminism and modernist abstraction intersected in uniquely contentious yet generative ways Sarah Louise Cowan not only asserts Pindell s rightful place within the canon but also recenters dominant historical narratives to reveal the profound and overlooked roles that Black women artists have played in shaping modernist abstraction Pindell s career acts as a springboard for a broader study of how artists have responded during periods of heightened social activism and used abstraction to convey political urgency With works that drew on Ghanaian textiles administrative labor cosmetics and postminimalism Pindell deployed abstraction in deeply personal ways that resonated with collective African diasporic and women s practices In her groundbreaking analysis Cowan argues that such work advanced Black feminist modernisms diverse creative practices that unsettle racist and sexist logics Weak Painting After Modernism Craig Staff, 2023-09-01 This book examines the terms upon which painting in the United States sought to negotiate with the legacy of American formalist aesthetics and by extension the understanding of modernist painting it had become most readily associated with In so doing a separate set of possibilities for painting gradually began to emerge The salient debates and practices that collectively worked to establish such a response are approached through the philosopher Gianni Vattimo s idea of pensiero debole or so called weak thought To this end the proposed study both identifies and seeks to examine a type of weak painting which like Vattimo s idea took as its critical point of departure the exhaustion but not the vanishing of the project of modernism the belief in reason progress history the nation state etc Craig Staff explores particular instances wherein artists sought to extend the parameters of the object beyond what had been called into question namely the proclivity for modernist painting s strength to be understood as denoting amongst other things a perceived set of universal essences This book will be of interest to scholars working in art history fine art cultural studies critical theory curatorial studies and philosophy Collections Vol 10 N2 Collections, 2014-04-28 Collections A Journal for Museum and Archives Professionals is a multi disciplinary peer reviewed journal dedicated to the discussion of all aspects of handling preserving researching and organizing collections Curators archivists collections managers preparators registrars educators students and others contribute Postmodernism and Video Art Liz Kim, 2025-08-22 Liz Kim traces the theories and artistic practices that articulated American experimental video through its key works and events art critical discourse as well as the politics of its funding and distribution during the 1970s into the 1980s focusing on New York This is a historical examination of the relationship between experimental video and postmodernism in the context of the early New York video

scene as a foundational crucible of ideas and practices Video grew out of both the acculturation of television as well as the resistance against its hegemonic forms as it enabled hybrid user generated content As such video became a testing ground for postmodern thought as it sat at the perfect nexus of mass media art and the politics of representation This book historicizes the theories of video art through the shifts in representations of cultural identities and the changes within its critical and structural supports Through this process chapters uncover new roots of postmodernism through historical evidence widening the scope of the term and its concepts The book will be of interest to scholars working in art history film studies and media studies

The Turn to Provisionality in Contemporary Art Raphael Rubinstein,2023-01-12 In his influential essay *Provisional Painting* Raphael Rubinstein applied the term provisional to contemporary painters whose work looked intentionally casual dashed off tentative unfinished or self cancelling who appeared to have deliberately turned away from strong painting for something that seemed to constantly risk failure or inconsequence In this collection of essays Rubinstein expands the scope of his original article by surveying the historical and philosophical underpinnings of provisionality in recent visual art as well as examining the works of individual artists in detail He also engages crucial texts by Samuel Beckett and philosopher Gianni Vattimo Re examining several decades of painting practices Rubinstein argues that provisionality in all its many forms has been both a foundational element in the history of modern art and the encapsulation of an attitude that is profoundly contemporary
