The New Of Knowledge 2 B:

A Structural Commentary on the So-Called Antilegomena Kalina Wojciechowska, Mariusz Rosik, 2024-06-17 The structural approach facilitates exposure of the elements of eschatological teaching characteristic of 2 Peter's author with its correct or incorrect interpretation. Narratives drawn from Jewish tradition aim to show two attitudes towards the announcement of destruction: a positive attitude signifying salvation and a negative attitude signifying annihilation. This pattern is transferred to the attitude towards prophetic and apostolic eschatological teaching. Part 1 of the commentary 2 Pet 1:2 focuses on the misinterpretation of this teaching by false teachers and their followers. Their eschatological scepticism is ridiculed and their grim fate described. As the starting point for this description and Peter's whole line of argumentation 2 Pet 2:3b is taken, the thesis is that God's inaction is only apparent while judgment and punishment are inevitable although only God knows when they will be executed. Part 2 of the commentary 2 Pet 3 focuses on the proper interpretation of this teaching and on laying out the principles of the letter author's hermeneutics. This hermeneutic construes texts from Jewish tradition as foreshadowing and typologies of eschatological events. In explaining the principles of his hermeneutic the letter's author drew on the creation story which Jewish apocalypticism read inversely to mark that the eschatological hermeneutics is rooted in tradition. The starting point of Peter's line of argumentation was taken to be 2 Pet 3:5-7 with its thesis of God's creative and destructive word and God's sovereign will regarding the preservation of creation and the appointment of the time of judgment. This thesis explains the apparent lack of divine action which was also a major concern in Part 1 of the commentary 2 Pet 1:2.

Internet and Social Change in Rural Indonesia Subekti Priyadharma, 2021-09-20 This book is based on an empirical research which explores bottom up development practices initiated and organized by rural communities in the Indonesian periphery by placing communication at its core of analysis. The aim is to determine the extent that the Indonesian decentralization policy and the use of internet and other digital Information and Communication Technologies (ICTs) has affected the theory and practice of development communication as well as changes in relations between the center and the periphery within the context of Indonesian rural development. The book takes on periphery perspective in center periphery interactions and relations. Hence it belongs to periphery research that has rarely been used in recent decades. By using Grounded Theory for its data collection and analysis method the results of this study are grouped into two major thematic categories: communication development instead of development communication and communication empowerment.
