The Politics of Knowledge in Central Asia Sarah Amsler, 2007-04-24 Through careful historical and ethnographic research and extensive use of local scholarly works this book provides a persuasive and careful analysis of the production of knowledge in Central Asia The author demonstrates that classical theories of science and society are inadequate for understanding the science project in Central Asia Instead a critical understanding of local science is more appropriate In the region the professional and political ethos of Marxism Leninism was incorporated into the logic of science on the periphery of the Soviet empire This book reveals that science organizes and constructed by Soviet rule was also defined by individual efforts of local scientists Their work to establish themselves between Marx and the market is therefore creating new political economies of knowledge at the edge of the scientific world system

Conceptual and Procedural Knowledge James Hiebert, 2013-08-21 First Published in 1986 This book is intended for those people who are interested in how mathematics is learned It is intended especially for those who are interested in the mental processes

involved in becoming mathematically competent and the mental processes that inhibit such competency from developing The volume opens with an overview of the issue and then traces the relationships between conceptual and procedural knowledge in mathematics from preschool days through the years of formal schooling Mathematics educators and cognitive psychologists from a variety of perspectives contribute theoretical arguments and empirical data to illuminate the nature of the relationships and in turn the nature of mathematics learning

The Diffusion and Consumption of Business Knowledge Jose Luis Alvarez, 2016-07-27 In the context of a united Europe the influence of business knowledge has become increasingly relevant as managers employees and organisations have to learn new practices and techniques in response to new knowledge and institutions This book addresses the way in which administrative knowledge is produced diffused and consumed in Europe by academics management gurus publishing houses consultants and practitioners It also looks at its impact on European business systems and management practices

Knowledge, Skill and Artificial Intelligence Bo Göransson, Ingela Josefson, 2012-12-06 Issues raised by the Theory of Knowledge a central theme in the development of Artificial Intelligence are the main topic of this book The major questions are How is the expert's knowledge to be elicited what are the limits and possibilities How can skill be developed and maintained in a more and more computerized and abstract working life This last question is also closely related to the discussion on programs for education and training in society and working life Long term effects on skill formation in working life in relation to new technology are a very important area of research Case studies form the basis for philosophical reflections with the main concept of tacit knowledge as the central issue of skill and new technology To a great extent the discussion is based on current case studies of professional groups with experience in advanced computer technology The contributions of this book demonstrate the complicated nature of human knowledge They introduce different theoretical perspectives on the issue of knowledge acquisition and elicitation
