Resurgent Politics and Educational Progressivism in the New South, North Carolina, 1890-1913 H. Leon Prather, 1979 The two major purposes of this study are to describe how a unique mixture of politics and racial attitudes coalesced to involve education and to identify and analyze the major forces associated with and propelling the public school movement between 1902 and 1913 in the South

New South Wales Government Gazette ,1920 Patricians, Professors, and Public Schools Allan S.

Horlick,1994-04-01 Patricians Professors and Public Schools argues that the thinking behind efforts to reform American schools in the late nineteenth and early twentieth centuries emphasized two new ideas that economic growth and the opportunity it created were more limited than had earlier been thought and that popular aspirations should be revised downward accordingly After discussing the thinking that reformers reacted against in the first chapter of the book later chapters examine those most responsible for these new ideas especially Felix Adler and John Dewey These chapters argue that reformers fears about the social dislocation stemming from economic growth makes the most sense of the educational redirection they promoted This is a new interpretation of developments that have long been debated by American historians and should be of interest to a wide variety of readers

The Oxford Handbook of The American Musical Raymond Knapp,Mitchell Morris,Stacy Wolf,2013-03 This text presents keywords and critical terms that deepen analysis and interpretation of the musical Taking into account issues of composition performance and reception the book s contributors bring a range of practical and theoretical perspectives to bear on their considerations of American musicals

Schooling the New South James L. Leloudis,2000-11-09 Schooling the New South deftly combines social and political history gender studies and African American history into a story of educational reform James Leloudis recreates North Carolina s classrooms as they existed at the turn of the century and explores the wide ranging social and psychological implications of the transition from old fashioned common schools to modern graded schools He argues that this critical change in methods of instruction both reflected and guided the transformation of the American South According to Leloudis architects of the New South embraced the public school as an institution capable of remodeling their world according to the principles of free labor and market exchange By altering habits of learning they hoped to instill in students a vision of life that valued individual ambition and enterprise above the familiar relations of family church and community Their efforts eventually created both a social and a pedagogical revolution says Leloudis Public schools became what they are today the primary institution responsible for the socialization of children and therefore the principal battleground for society s conflicts over race class and gender

Identities and Audiences in the Musical Raymond Knapp,Mitchell Morris,Stacy Wolf,2018-09-04 Issues of identity have always been central to the American musical in all its guises Who appears in musicals who or what they are meant to represent and how over time those representations have been understood and interpreted provide the very basis for our engagement with the genre In this third volume of the reissued Oxford Handbook of the American Musical chapters focus on race ethnicity gender and sexuality regional vs national identity and the cultural and class significance of the musical itself As important as the question of who

appears in musicals are the questions of who watches and listens to them and of how specific cultures of reception attend differently to the musical Chapters thus address cultural codes inherent to the genre in particular those found in traditional school theater programs **The British Colonies: British India** Robert Montgomery Martin,1851
