Copyright Office,1979 **Transformative Eco-Education for Human and Planetary Survival** Jing Lin,Rebecca L. Oxford,2011-12-01 Transformative eco education is environmental education that is literally needed to transform and save our planet especially during the global ecological crises of our present century Such education demands inner transformation of many deeply rooted ideas such as the following the Earth exists merely to provide for human comfort the extinction or reduction of other species does not matter we are free to consume or destroy natural resources at will but are safe from destruction ourselves and the Earth will continue to sustain us even if we do not sustain the Earth Unless these concepts are changed we will increase global warming and add to the ruin of much of the Earth This book presents powerful ideas for transformative eco education At this time of ever increasing ecological crisis such education is needed more than ever before We urge readers to use the ideas and activities in this book with your students develop them further and create new conceptions to share with other educators and students The chapters in this book provide key principles of which the following are just a few First educators can and should prepare students for natural disasters Second stories case studies the arts and hands on environmental experience all enriched by reflection and discussion can offer profound learning about ecology Third education at all levels can benefit from a true ecological emphasis Fourth teachers must receive preparation in how to employ transformative eco education Fifth Indigenous wisdom can offer important holistic spiritual paths to understanding and caring for nature and other spiritual traditions also provide valid ways of comprehending humans as part of the universal web of existence Sixth transformative eco education can be an antidote to not only to environmental breakdown but also to materialistic overconsumption and moral confusion Seventh we can only heal the Earth by also healing ourselves If we heed these principles together we can make transformative eco education a blazing torch to light the path for the current century and beyond Cognitive Self-Instruction (CSI) for Classroom Processes Brenda H. David Stone,1979 **San Francisco Review of Books** ,1976 **Erica'S Blog: a Tool Kit for Fixing What'S Not Working in Your Life** Kendra Brown PhD,Pat Austin Novak,2017-10-18 This is another book in the field of self help for women How could that possibly be worth writing or publishing The shelves of bookstores and local libraries are full of titles Amazons lists seem endless Yet Ericas Blog proudly proclaims that its different and it has a proven track record with individual readers as a text for group therapy or as an addition to individual therapy Readers criticize self help books for reading too much like textbooks with too many pages devoted to analyzing and defining problems They also complain they feel talked down to by authors who offer simplistic suggestions Ericas Blog avoids these pitfalls presenting respected clinical approaches in a unique fictionalized format Readers get acquainted with Erica through her blog and as the book progresses find themselves identifying with her They can gain validation comfort and hopefully even courage as they observe Erica struggling with and profiting from the various tools in her tool kit The unique fictional package combining honesty and humor with serious and time honored clinical tools makes this book a page turner for the reader *Contemporary Authors* Frances C.
