The Nigger Question The Negro Question Crofts Classics:

The Problem of Freedom Thomas C. Holt, 1992 The Jamaican slave revolt of 1831-32 precipitated the abolition of slavery throughout the British colonial empire A century later the labor rebellion of 1938 marked the beginning of that empire's end Each event embraced a particular form of emancipation at issue in the first revolt was the freedom of the individual slave at issue in the second was the freedom of the society itself The century that separated these watersheds in British colonial history was one of extraordinary transformations in British ideology in economic and social policy and in the lives of Jamaican freed people and their descendants In *The Problem of Freedom* Thomas C Holt offers an intriguing analysis of this period exploring the meaning and reality of freedom in the context of slave emancipation in Jamaica the largest West Indian colony of the nineteenth century's major world power *Reflections on the Classical Canon in Economics* Evelyn L. Forget, Sandra Peart, 2000-09-28 In this discipline defining volume some of the leading international scholars in the history of economic thought re-examine the concepts of classical economics and the canon illuminating the roots and evolution of the contemporary discipline **The Racial Contract** Charles W. Mills, 2022-04-15 The Racial Contract puts classic Western social contract theory deadpan to extraordinary radical use With a sweeping look at the European expansionism and racism of the last five hundred years Charles W Mills demonstrates how this peculiar and unacknowledged contract has shaped a system of global European domination how it brings into existence whites and non whites full persons and sub persons how it influences white moral theory and moral psychology and how this system is imposed on non whites through ideological conditioning and violence The Racial Contract argues that the society we live in is a continuing white supremacist state As this 25th anniversary edition featuring a foreword by Tommy Shelby and a new preface by the author makes clear the still urgent The Racial Contract continues to inspire provoke and influence thinking about the intersection of the racist underpinnings of political philosophy **The Racial Contract** Charles Wade Mills, 1997-09-11 Argues that racially structured discrimination is the norm by using social contract theory Allergy Matters Luud J.E.J. Gilissen, Harry J. Wichers, Huub F.J. Savelkoul, Robert J. Bogers, 2006-01-30 In Western societies the incidence and prevalence of respiratory and food related allergies have increased rapidly over the past decades Changes in life style are thought to be involved in this increase namely hygiene child vaccination housing insulation and food consumption patterns This book reflects the current ideas for future possibilities of allergy prevention using integrated and multidisciplinary strategies and covering the entire knowledge framework from comprehensive fundamental research to implementation into society **Dickens and the Dialectic of Growth** Badri Raina, 1986 In his works from *Oliver Twist* to *Our Mutual Friend* Charles Dickens reveals a continuum of artistic as well as social development over a period of four decades In this highly original study Badri Raina relates Dickens novels thoroughly to one another illuminating the works by seeing them in terms of the author's changing social outlook personal attitudes and aesthetic practice Raina's book will fascinate readers of Dickens and will serve social

historians as well. The unifying point of Raina's study is Dickens' ambivalence toward respectable Victorian bourgeois society: he criticized the bourgeois myths of unbridled success and achievement through aggressive individualism yet wished to be a great success himself. Raina argues that Dickens projected this personal ambivalence through the creation of key characters and combinations of characters in his novels, creating also a continual movement toward self-awareness and self-criticism. This personal movement, argues Raina, found expression in a steady improvement in the quality of Dickens' art. Two of the most interesting issues in Dickens studies—that of his development as a novelist and that of his mass appeal in combination with towering aesthetic achievement—are both addressed thoroughly in this lucid and highly readable book. By following common threads of plot and character through the novels, Raina demonstrates how Dickens matured both socially and artistically until, in his last finished novel *Our Mutual Friend*, social values that were earlier espoused (for instance in *Oliver Twist*) were wholly and willingly rejected. Raina's critical procedure illuminates not just the career of a Victorian novelist but one who embraces, traverses, and evaluates the social climate of a critical period of the nineteenth century. **Societies**

After Slavery Rebecca J. Scott, Thomas C. Holt, Frederick Cooper, Aims McGuinness, 2002-08-18 One of the massive transformations that took place in the nineteenth and early twentieth centuries was the movement of millions of people from the status of slaves to that of legally free men, women, and children. *Societies after Slavery* provides thousands of entries and rich scholarly annotations, making it the definitive resource for scholars and students engaged in research on postemancipation societies in the Americas and Africa. The Caribbean Race Reader Victoria J. Collis-Buthelezi, Aaron

Kamugisha, 2024-09-11 This book is the first critical anthology in English on the history and legacy of race in the Caribbean. It brings together the major debates, lines of inquiry, and theories around race and racism that have emerged out of the Caribbean from the beginning of European colonization at the end of the fifteenth century to the period of decolonization in the aftermath of World War II. This critical anthology stakes out the unique contribution made by the region to the global history of race. *The Caribbean Race Reader* provides students and scholars of the region with vital access to some of the most important contributions on race and Caribbean society, many of which are difficult to access and assembles them together as part of a series of key debates. At a time when the searing realities of race and antiblack racism stand out as global existential crises, this volume both documents the Caribbean's important contribution to global histories of race and provides an excellent overview of the quest by the region's radical intelligentsia to undo racism's contemporary legacies. A Political

Companion to W. E. B. Du Bois Nick Bromell, 2018-03-16 Literary scholars and historians have long considered W. E. B. Du Bois (1868–1963) an extremely influential writer and a powerful cultural critic. The author of more than one hundred books, hundreds of published articles, and founding editor of the NAACP journal *The Crisis*, Du Bois has been widely studied for his profound insights on the politics of race and class in America. An activist as well as a scholar, Du Bois proclaimed, "I stand in utter shamelessness and say that whatever art I have for writing has been used always for propaganda for gaining the right

of black folk to love and enjoy In A Political Companion to W E B Du Bois Nick Bromell assembles essays from both new and established scholars from a variety of disciplines to explore Du Bois s contributions to American political thought The contributors establish a conceptual context within which to read the author revealing how richly and variously he engaged with the aesthetic and theological modalities of political thinking and action This volume further reveals how Du Bois s work challenges and revises contemporary political theory providing commentary on the author s strengths and limitations as a theorist for the twenty first century In doing so it helps readers gain an understanding of how Du Bois s work and life continue to stimulate lively and constructive debate about the theory and practice of democracy in America **Selections from the Essays** Thomas Henry Huxley,1948 The author was one of the intellectual giants of Victorian England A surgeon by training he became the principal exponent of Darwinism and popularizer of scientific naturalism Huxley was a prolific essayist and his writings put him at the center of intellectual debate in England during the later half of the nineteenth century
