Boccaccio's Fabliaux Katherine A. Brown, 2020-04-02 A remarkably well informed and truly innovative study of the way Boccaccio reimagined and rewrote Old French fabliaux in his Decameron François Rigolot Princeton University Theoretically savvy and yet jargon free philologically impeccable and critically acute this is a book that shows the author's unflinching dedication to the highest standards of scholarship Simone Marchesi author of Dante and Augustine Brown's attention to codicological contexts coupled with persuasive new interpretations of some of the fabliaux and Decameron stories make this book a pleasure to read for medievalist veterans and novices alike Renate Blumenfeld Kosinski author of Poets Saints and Visionaries of the Great Schism 1378-1417 Short works known for their humor and ribaldry the fabliaux were comic or satirical tales told by wandering minstrels in medieval France Although the fabliaux are widely acknowledged as inspiring Giovanni Boccaccio's masterpiece the Decameron this theory has never been substantiated beyond perceived commonalities in length and theme This new and provocative interpretation examines the formal similarities between the Decameron's tales of wit wisdom and practical jokes and the popular thirteenth century fabliaux Katherine Brown examines these works through a prism of reversal and chiasmus to show that Boccaccio was not only inspired by the content of the fabliaux but also by their fundamental design where a passage of truth could be read as a lie or a tale of life as a tale of death Brown reveals close resemblances in rhetoric literary models and narrative structure to demonstrate how the Old French manuscripts of the fabliaux were adapted in the organization of the Decameron Identifying specific examples of fabliaux transformed by Boccaccio for his classic Decameron Brown shows how Boccaccio refashioned borrowed literary themes and devices playing with endless possibilities of literary creation through manipulations of his model texts Katherine A Brown is a specialist of medieval French and Italian literature The Cambridge History of Italian Literature Peter Brand, Lino Pertile, 1999-08-28 Italy possesses one of the richest and most influential literatures of Europe stretching back to the thirteenth century This substantial history of Italian literature provides a comprehensive survey of Italian writing since its earliest origins Leading scholars describe and assess the work of writers who have contributed to the Italian literary tradition including Dante Petrarch and Boccaccio the Renaissance humanists Machiavelli Ariosto and Tasso pioneers and practitioners of commedia dell'arte and opera and the contemporary novelists Calvino and Eco The Cambridge History of Italian Literature sets out to be accessible to the general reader as well as to students and scholars translations are provided along with a map chronological chart and substantial bibliographies **Italian Renaissance Tales** Anthony Mortimer, 2019-10-29 Thus she was decapitated and this was the end to which she was brought by her unbridled lusts For over two centuries after Boccaccio's groundbreaking Decameron the Italian novella exercised a crucial influence over European prose fiction With thirty nine

stories by nineteen authors many translated for the first time this anthology presents tales from the whole genre and period Here we meet a rich cast of humble peasants and shrewd craftsmen frustrated wives libidinous friars ill fated lovers and vengeful nobles These works had a considerable impact in English and the selection includes tales that have provided sources for Chaucer Shakespeare Webster Marston Dryden Byron and Keats The typical novella is situated in a precise time and place and features people who either existed historically or are presumed to have done so The subject matter whether ribald or sentimental comic or tragic often reflects the social and economic conditions of its age and thus the novella has been seen as a crucial stage in the development of fictional realism and the emergence of the novel
