The Transcendental Experience AA. VV., 2020-08-06 The Transcendental Experience that which evidences the continuity of the spirit beyond the physical death of the body has been the objective around which from historical times various mystical schools were organized Asceticism on the other hand is the particular path that each one of them developed as a proposal to achieve such experience Silo 1938 2010 who referred to himself as a writer and practitioner of what he called an inner religiosity promoted a proposal of simultaneous spiritual and social change to advance towards the formation of a Universal Human Nation In the field of spirituality he affirms that there is no meaning in life if everything ends with death dedicating his writing of *The Inner Look* 1989 to this theme and on the other hand in his *Psychology Notes* 2006 he explains the possibility of suspension and suppression of one's own I in order to make contact with another state or level of consciousness that he designates as The Profound He then suggests a first stage of leveling previous to the realization of one of four Disciplines that he developed mental energetic material and morphological as previous steps to an Asceticism that defines as a path of all life which tends to overcome the Self to enter the deep spaces of the Sacred The authors of this book compiled and ordered the conclusions of more than one hundred men and women from different countries who are part of the several thousands who have followed Silo's teachings and the methodology proposed here uses the advantages of relaxation and concentration that a Sensory Suppression Chamber has as well as the possibilities provided by the teamwork in order to accelerate the Asceticism
