Sky High Irvin The Story Of A Parachute Pioneer:

Sky High Irvin Peter Hearn, 1983 Historien om Leslie Leroy Irvin der skabte og udviklede den moderne faldskærm. Grundlagde sin virksomhed i 1919. Ved hans død i 1966 blev hans skærm anvendt ved landinger af rumpiloter og fartjer. *A Leap from the Clouds* Jerry Kuntz, 2022-07-26 In the late nineteenth century circus aerialists collaborated with show balloonists to perform death defying stunts initially by suspending themselves from trapeze bars beneath a balloon later by jumping from the balloons using fabric parachutes. By the 1890s these performances became a worldwide craze remaining in rural fairs and fetes for decades. Many of the original balloon parachute pioneers went on to play key roles in the creation of airships test flying the first gliders and airplanes. Based on extensive historical research this unusual account explores how a nineteenth century daredevil act united with the desire to achieve human flight. These performers' contributions did not come without a price: dozens if not hundreds of people died in horrifying events witnessed by thousands of spectators. This book chronicles the act that had no practical purpose other than entertainment which eventually evolved into the development of the free fall parachute: a key aviation need and the foundation of a new activity known as skydiving. **One Hundred Years of Air Power and Aviation** Robin Higham, 2003 In this precise interpretive and informative volume Higham looks at everything from the roots of strategic bombing and tactical air power to the lessons learned and unlearned during the invasion of Ethiopia the war in China and the Spanish Civil War. He also considers the problems posed by jet aircraft in Korea and the use of Patriot missiles in the Persian Gulf. He covers anti guerrilla operations doctrine industrial activities and equipment as well as the development of commercial airlines. *Aviation in Northern California 1910-1939* Allen Herr, 2020-07-01 *Aviation in Northern California 1910-1939 Vol 1* San Francisco Bay Area is the only book to give a detailed account of early flying in the Bay Area. Historian Allen Herr recalls the aviation pioneers who flew weekly exhibitions promoting the Panama Pacific International Exposition fifteen months prior to its San Francisco opening. These pioneers formed flying schools built airports manufactured aircraft and competed against each other. Herr captures the energy behind the Bay Area aviation movement tells who was involved and describes the effects of their extraordinary determination and achievements. This edition is one of three in Herr's series of *Aviation in Northern California 1910-1939*. *Aviation in Northern California 1910-1939* H. Allen Herr, 2020-08-09 Historian Allen Herr's lively aviation stories document fearless risk takers in Northern California with biographies of the pioneer aviators descriptions of the barnstormers commercial flyers regional airplane builders and local airfield development from 1910 to 1939. Extensive research and 94 photos some published for the first time complement two other titles in a book series of early Northern California aviation history written by the former pilot. Originally published in 2015 as *Golden Wings over the Feather River* ISBN 978 1 935807 14 8 but with added information and more illustrations. This volume II of the series is about early aviation in Yuba Sutter and Butte Counties. **No Empty Chairs** Ian Mackersey, 2012-05-10 The 1914-18 conflict narrated through the voices of the men

whose combat was in the air This moving book uses letters and diaries to evoke the terrible cost of such warfare Sleepless nights separated lovers and grieving parents are recalled with painful immediacy in this meticulously researched tribute to those who died or were lucky enough to survive DAILY MAIL The empty chairs belonged all too briefly to the doomed young First World War airmen who failed to return from the terrifying daily aerial combats above the trenches of the Western Front The edict of their commander in chief was the missing aviators were to be immediately replaced Before the new faces could arrive the departed men s vacant seats at the squadron dinner table were sometimes poignantly occupied by their caps and boots placed there in a sad ritual by their surviving colleagues as they drank to their memory Life for most of the pilots of the Royal Flying Corps was appallingly short If they graduated alive and unmaimed from the flying training that killed more than half of them before they reached the front line only a few would for very long survive the daily battles they fought over the ravaged moonscape of no man s land Their average life expectancy at the height of the war was measured only in weeks Parachutes that began to save their German enemies were denied them Fear of incarceration and the daily spectacle of watching close colleagues die in burning aircraft took a devastating toll on the nerves of the world s first fighter pilots Many became mentally ill As they waited for death or with luck the survivable wound that would send them back to Blighty they poured their emotions into their diaries and streams of letters to their loved ones at home Drawing on these remarkable testimonies and pilots memoirs Ian Mackersey has brilliantly reconstructed the First Great Air War through the lives of its participants As they waited to die the men shared their loneliness their fears triumphs and squadron gossip with the families who lived in daily dread of the knock on the door that would bring the War Office telegram in its fateful green envelope
