**Theory after Derrida** Kailash C. Baral, R. Radhakrishnan, 2012-04-27 A critical anthology that re-examines Jacques Derrida's thought by way of theory and praxis this volume reflects on his striking legacy and the future of theory Among contemporary thinkers Derrida challenges not only our ways of thinking but also hitherto methods of critical inquiry In the attempt to renovate and re-energise philosophy Derrida questions the fundamental assumptions of Western philosophical thought and in turn exposes the intricate lie behind binaries such as speech writing nature culture male female black white literature criticism etc which have continued to shape our worldview where a hegemonic centre is always already in place dominating marginalising the other This book explores not only the status of Derrida's contribution as a critical thinker but also the status of critical theory as such in the contemporary milieu The central question that it asks is whether we should dismiss Derrida as a thinker who espoused an extreme form of relativism bordering on nihilism or has he something fundamental to contribute to the future of theory Could it be that deconstruction is not destruction but a possibility that casts doubts on whether the present can have faith in future The volume addresses some important concerns of our times such as religious practice art and aesthetics translation sociology of philosophy and democracy making a significant contribution to literary theory Scholars of English literature philosophy sociology and cultural studies will find this work particularly appealing

*Comparative Political Theory and Cross-Cultural Philosophy* Jin Y. Park, 2009-06-16

*Comparative Political Theory and Cross Cultural Philosophy Essays in Honor of Hwa Yol Jung* explores new forms of philosophizing in the age of globalization by challenging the conventional border between the East and the West as well as the traditional boundaries among different academic disciplines The essays in this volume examine diverse issues encompassing globalization cosmopolitanism public philosophy political ecology ecocriticism ethics of encounter and aesthetics of caring They examine the philosophical traditions of phenomenology of Husserl Merleau Ponty and Heidegger the dialogism of Mikhail Bakhtin the philosophy of mestizaje literature and Asian philosophical traditions This rich comparative and cross cultural investigation of philosophy and political theory demonstrates the importance of cultural and cross cultural understanding in our reading of philosophical texts exploring how cross cultural thinking transforms our understanding of the traditional philosophical paradigm and political theory This volume honors the scholarship and philosophy of Hwa Yol Jung who has been a pioneer in the field of comparative political theory cross cultural philosophy and interdisciplinary scholarship In one of his earliest publications *The Crisis of Political Understanding* 1979 Jung described the

urgency and necessity of breakthrough in political thinking as a crisis and he followed up on this issue for his half century of scholarship by introducing Asian philosophy and political thought to Western scholarship demonstrating the possibility of cross cultural philosophical thinking In his most recent publications Jung refers to this possibility as transversality or trans universality a concept which should replace the outmoded Eurocentric universality of modernist philosophy Jung expounds that in transversality differences are negotiated and compromised rather than effaced and absorbed into sameness This volume is a testimony to the very possibility of *Western Political Thought in Dialogue with Asia* Cary J. Nederman, Takashi Shogimen, 2008-12-16 Given the rise of globalization and coinciding increase in cultural clashes among diverse nations it has become eminently clear to scholars of political thought that there exists a critical gap in the knowledge of non Western philosophies and how Western thought has been influenced by them This gap has led to a severely diminished capacity of both state and nonstate actors to communicate effectively on a global scale The political theorists area scholars and intellectual historians gathered here by Takashi Shogimen and Cary J Nederman examine the exchange of political ideas between Europe and Asia from the Middle Ages to the early twentieth century They establish the need for comparative political thought showing that in order to fully grasp the origins and achievements of the West historians of political thought must incorporate Asian political discourse and ideas into their understanding By engaging in comparative studies this volume proves the necessity of a cross disciplinary approach in guiding the study of the global history of political thought **The Welfare State in Post-Industrial Society** Jason L. Powell, Jon Hendricks, 2009-06-10 In recent years major social forces such as ageing populations social trends migration patterns and the globalization of economies have reshaped social welfare policies and practices across the globe Multinational corporations NGOs and other international organizations have begun to influence social policy at a national and local level Among the many ramifications of these changes is that globalizing influences may hinder the ability of individual nation states to effect policies that are beneficial to them on a local level With contributions from thirteen countries worldwide this collected work represents the first major comparative analysis on the effect of globalization on the international welfare state The Welfare State in Post Industrial Society is divided into two major sections the first draws from a number of leading social welfare researchers from diverse countries who point to the nation state as case studies highlighting how it goes about establishing and revising social welfare provisions The second portion of the volume then moves to a more global perspective in its analysis and questioning of the impact of globalization on citizenship ageing and marketization The Welfare State in Post Industrial Society seeks to encourage debate about the implications of the most pressing social welfare issues in nation states and integrate analyses of policy and practice in particular countries struggling to provide social welfare support for their needy populations
