Reflections of a Culture Broker Richard Kurin, 2014-12-10 Is culture brokered like stocks real estate or marriage In this engaging book Richard Kurin shows that cultures are also mediated and indeed brokered by countries organizations communities and individuals all with their own vision of the truth and varying abilities to impose it on others Drawing on his diverse experiences in producing exhibitions and public programs Kurin challenges culture brokers defined broadly to include museum professionals film makers journalists festival producers and scholars of many disciplines to reveal more clearly the nature of their interpretations to envision the ways in which their messages can play to different audiences and to better understand the relationship between knowledge art politics and entertainment The book documents a variety of cases in which the Smithsonian has brokered culture for the American public a planned exhibit on Jerusalem had to balance both Israeli and Palestinian agendas debates over the 1996 Olympic Arts Festival presented differing visions of the American South and the National Air and Space Museum's controversial display of the Enola Gay prompted the Smithsonian to re-examine the role of national museums Arguing that cultural exhibits reflect a series of decisions about representing someone someplace and something Reflections of a Culture Broker discusses the ethical and technical problems faced by not only those who practice in a museum setting but also anyone charged with representing culture in a public forum

Curating America's Painful Past Tim Gruenewald, 2021-07-28 During the global Black Lives Matter protests of 2020 many called upon the United States to finally face its painful past Tim Gruenewald's new book is an in depth investigation of how that past is currently remembered at the national museums in Washington DC Curating America's Painful Past reveals how the tragic past is either minimized or framed in a way that does not threaten dominant national ideologies Gruenewald analyzes the National Museum of American History NMAH the United States Holocaust Memorial Museum USHMM the National Museum of African American History and Culture NMAAHC and the National Museum of the American Indian NMAI The NMAH the nation's most popular history museum serves as the benchmark for the imagination of US history and identity The USHMM opened in 1993 as the United States official Holocaust memorial and stands adjacent to the National Mall Gruenewald makes a persuasive case that the USHMM established a successful blueprint for narrating horrific and traumatic histories Curating America's Painful Past contrasts these two museums to ask why America's painful memories were largely absent from the memorial landscape of the National Mall and argues that social injustices in the present cannot be addressed until the nation's painful past is fully acknowledged and remembered It was only with the opening of the NMAAHC in 2016 that a detailed account of atrocities committed against African Americans appeared on the National Mall Gruenewald focuses on the museum's narrative structure in the context of national discourse to provide a critical reading of the museum When the NMAI opened in 2004 it presented for the first time a detailed history from a Native American perspective that sought to undo conventional museum narratives However criticism led to more traditional exhibitions and national focus Nevertheless the museum still marginalizes memories of the vast numbers of Indigenous victims to European colonization and to US expansion In a final chapter Gruenewald offers a thought experiment imagining a memory site like the recently opened National Memorial for Peace and Justice Montgomery Alabama situated on the National Mall so the reader can assess how profound an effect projects of national memory can have on facing the past as a matter of present justice
