Some Outlines Of Gnostic Aeonology:

The Life and the Doctrines of Philippus Theophrastus, Bombast of Hohenheim Known by the Name of Paracelsus Theophrastus Paracelsus, Franz Hartmann, 1891 *Studies in Mysticism and Certain Aspects of the Secret Tradition* Arthur Edward Waite, 1970 1906 Contents Hither Side of the Portal Life of the Mystic Enterprise of Sanctity Sense of the Infinite Supernatural Goodness a Question of Service Asceticism Foundation of Higher Magic Vestiges of the Outer Ways Lesser Myster **The Voudon Gnostic Workbook** Michael Bertiaux, 2007-07-01 A long awaited new edition of the seminal text on the spiritual system that is a convergence of Gnosticism and Haitian voodoo The Voudon Gnostic Workbook is a singular sacred work that is comprehensive in scope from how to be a lucky Hoodoo to how magick and voodoo intersect energetically to esoteric time travel Complete with charts and graphs and instructive interdimensional physics The Voudon Gnostic Workbook is an object of desire among students of the occult Weiser's long anticipated republication of this rare text will be an event in the annals of esoteric publishing as the book itself is somewhat of an unholy grail There are listservers devoted to it and much discussion of the mysteries held within its pages While The Voudon Gnostic Workbook has remained a controversial book considered important for masters of metaphysics it recently came into popular culture and renewed popularity when Grant Morrison revealed it had been the inspiration for his cult comics The Invisibles using the cribbed time travel from Bertiaux's masterwork Voodoo is not an evil religion and is much misunderstood It derives from the Dahomean Gods called the Loa Esoteric voodoo is actually a highly practical procedure for leading us into making contact with the deepest levels of our being and most ancient modes of consciousness Michael Bertiaux's Voudon Gnostic Workbook is the most comprehensive and illuminating contemporary book on the subject Launched out of a correspondence course and series of classes for students and followers of Voudon Gnosticism and the OTO this seminal text is at once one of the most mysterious and magnificent of all esoteric books Origen on the Song of Songs as the Spirit of Scripture J. Christopher King, 2005-10-06 Christian exegesis of the Song of Songs has long interacted creatively with and more recently reacted critically against the allegorical interpretation developed by Origen of Alexandria c 185 c 254 in his Commentary and two Homilies on the Song of Songs Interest in Origen's exegesis of the Song's narrative elements has dominated past scholarship which has almost entirely ignored how Origen assesses the Song itself in its unity as a revealed text This study aims to show that the Commentary and Homilies when read in light of Origen's hermeneutic his nuptial theology his understanding of the prophetic mediation of inspired texts and his doctrine of last things clearly portray the Song of Songs itself as the divine Bridegroom's perfect marriage song As such it mediates Christ's eschatological presence as the spirit of Scripture in and through the intelligible structures of the text itself **Constructing Tradition** Andreas Kilcher, 2010-10-05 This volume of conference proceedings investigates the various ways and patterns with which esoteric writings and groups establish their own tradition This involves concepts of origin and memory ways of legitimising esoteric tradition as well as techniques and

Carpocrates, Marcellina, and Epiphanes M. History and Legacy of the Mysterious Ancient Religion Charles River Editors,2019-03-18 Includes pictures Includes ancient accounts Includes online resources and a bibliography for further reading This knowledge is not something that can be put into words like other sciences but after long continued intercourse between teacher and pupil in joint pursuit of the subject suddenly like light flashing forth when a fire is kindled it is born in the soul and straightway nourishes itself Plato Gnosticism is one of the great mysteries in the history of Western religion At its core is an ancient Greek word gnosis a word prominent in the writings of Plato which refers to a deep personal knowledge or understanding that often transcends the physical world The Gnostics painted a picture of a fallen broken world in which physicality was a product of a lesser deity This deity was created in defiance of the One and in order to trap humans and blind them to the truths of their predicament and divine origins By acquiring insight or gnosis in this secret nature of the world humans might escape their prison Only through knowledge can people be set free As that makes clear Gnosticism as a belief system is difficult to define since it is not a well organized or uniform doctrine like Christianity or Judaism but at one time there was some synchronization with Christianity that nurtured both movements As a religion and philosophy Gnosticism flourished alongside Christianity and it is not easy to say which one came first but it is certain that both movements influenced each other To paraphrase John Dominic Crossan it is unclear whether Gnosticism was a Christian heresy a Jewish heresy or an original religion that powerfully merged with both Gnosticism borrowed elements from Christians just as the whole of Christianity took a certain Gnostic flavor to the point that some books of the New Testament especially the Gospel of John could easily pass as a proto Gnostic document At the risk of oversimplifying Gnosticism was the belief that the souls are divine sparks imprisoned in imperfect physical bodies due to the machinations of a lesser and evil god who created the world This evil god is identified with the creator of the Genesis and the Hebrew Bible The material world and the body are prisons separated from the divine realm from which humans must escape through the ascent of various levels This is possible through the acquisition of secret knowledge reserved for the elect This special revelation or gnosis knowledge was supposedly disclosed by Jesus to his dearest disciples and it can be found in the Gnostic books deliberately written in cryptic language The acquisition of the secrets necessary for the salvation of the soul in many cases implied a radical asceticism and corporal sacrifice Due to such classical roots it would be easy to conclude that Gnosticism is an ancient philosophy and a cursory glance might categorize it as simply a way of understanding the world and promoting investigation However the term is most often used to describe not a philosophy but a religion and not just any religion but a branch of one of the most resilient and influential traditions in history Christianity So what exactly is Gnosticism and why does it remain such a source of confusion captivation and

charisma for modern scholarship and culture alike These answers are complex and indicative of how the many turnings of the last two millennia have unexpectedly unearthed some answers while burying others even deeper Gnosticism The History and Legacy of the Mysterious Ancient Religion looks at the different origins that shaped Gnosticism what Gnostics believed and practiced and the influence they had on other religions Along with pictures depicting important people places and events you will learn about Gnosticism like never before *Fragments of a Faith Forgotten.
