

The background of the cover is a detailed photograph of fossilized bones and teeth. The bones are light brown to tan in color, showing various textures and structures. Some bones are long and slender, while others are more robust and curved. The teeth, visible at the bottom, are dark and pointed. The overall composition is a close-up, highlighting the intricate details of the fossilized remains.

**Vetch-Zymotic Diseases** Hugh Chisholm, 1911 This eleventh edition was developed during the encyclopaedia's transition from a British to an American publication. Some of its articles were written by the best known scholars of the time and it is considered to be a landmark encyclopaedia for scholarship and literary style. *The Encyclopaedia Britannica* ,1911 *The Encyclopaedia Britannica: Vetch-Zymotic Diseases* ,1911 The last great work of the age of reason, the final instance when all human knowledge could be presented with a single point of view. Unabashed optimism and unabashed racism pervades many entries in the 11th and provide its defining characteristics. Despite its occasional ugliness, the reputation of the 11th persists today because of the staggering depth of knowledge contained within its volumes. It is especially strong in its biographical entries. These delve deeply into the history of men and women prominent in their eras who have since been largely forgotten except by the historians and scholars.
