Came to Rebuild New Orleans Christopher E. Manning, 2025-06-12 When Hurricane Katrina struck in 2005 causing more than 1 800 deaths and more than 100 billion in damages it was deemed a once in a lifetime storm After the hurricane over 1 5 million volunteers came to New Orleans through various nonprofit organizations and around 500 new charities were established to aid the city s recovery We Came to Rebuild New Orleans documents this significant movement through interviews with the activists who spearheaded the city s recovery Despite widespread acknowledgment of the crucial role of nonprofit organizations in New Orleans s recovery scholarly examinations of these recovery workers experiences remain scarce We Came to Rebuild New Orleans fills this gap drawing on a vast corpus of interviews with more than fifty leaders and staff involved in Katrina recovery across various areas including housing criminal justice reform legal aid and wetlands restoration The interviews seek to understand what motivates individuals to devote significant portions of their lives to recovery and to assess whether nonprofit volunteer labor was an effective recovery strategy Analysis of the testimonies of participants reveals that most of the disaster recovery corps even those in their early twenties had histories of activism or civic engagement before committing to New Orleans recovery work While significant their recovery work in New Orleans tended to represent a single chapter in a broader life story of service and civic engagement Despite the good intentions of the volunteers their testimonies also highlight the limitations of relying on volunteer nonprofit organizations for disaster recovery We Came to Rebuild New Orleans thus offers an extraordinary new look at long term disaster recovery efforts in the aftermath of Hurricane Katrina Sharing the personal stories of nonprofit workers from many walks of life the book emphasizes their persistent spirit of activism and civic engagement while also reflecting critically on the effectiveness of volunteer based disaster recovery initiatives

The Fight for Home Daniel Wolff, 2012-08-07 Traces the author s five year effort to document New Orleans rebuilding efforts after Hurricane Katrina revealing how the city served as a reinvention of American ideals as advocated by urban planners celebrities politicians and anarchists against a backdrop of an emerging national recession

A Country of Strangers David K. Shipler, 2016-04-20 A Country of Strangers is a magnificent exploration of the psychological landscape where blacks and whites meet To tell the story in human rather than abstract terms the Pulitzer Prize winning writer David K Shipler bypasses both extremists and celebrities and takes us among ordinary Americans as they encounter one another across racial lines We learn how blacks and whites see each other how they interpret each other s behavior and how certain damaging images and assumptions seep into the actions of even the most unbiased We penetrate into dimensions of stereotyping and discrimination that are usually invisible and discover the unseen prejudices and privileges of white Americans and what black Americans make of them We explore the competing impulses of integration and separation the reference points by which the races navigate as they venture out and then withdraw the biculturalism that many blacks perfect as they move back and forth between the white and black worlds and the homesickness some blacks feel for the comfort of all black separateness There are portrayals of interracial families and

their multiracial children expert guides through the clashes created by racial blending in America We see how whites and blacks each carry the burden of our history Black white stereotypes are dissected the physical bodies that we see the mental qualities we imagine the moral character we attribute to others and to ourselves the violence we fear the power we seek or are loath to relinquish The book makes clear that we have the ability to shape our racial landscape to reconstruct even if not perfectly the texture of our relationships There is an assessment of the complexity confronting blacks and whites alike as they struggle to recognize and define the racial motivations that may or may not be present in a thought a word a deed The book does not prescribe but it documents the silences that prevail the listening that doesn't happen the conversations that don't take place It looks at relations between minorities including blacks and Jews and blacks and Koreans It explores the human dimensions of affirmative action the intricate contacts and misunderstandings across racial lines among coworkers and neighbors It is unstinting in its criticism of our society's failure to come to grips with bigotry but it is also happily crowded with black people and white people who struggle in their daily lives to do just that A remarkable book that will stimulate each of us to reexamine and better understand our own deepest attitudes in regard to race in America

Families Torn Apart United States. Congress. House. Committee on Foreign Affairs. Subcommittee on International Organizations, Human Rights, and Oversight, 2008 The Path to Paralysis Donald G. Nieman, 2024-10-15 How did the world's oldest democracy lose its mojo How did we get to a point where we face existential crises like climate change yet leaders can't agree that there's a problem let alone develop solutions Political leaders bear some of the responsibility Newt Gingrich Sarah Palin and Donald Trump to name a few have shattered political norms and transformed our politics into a free for all in which personal attacks appeals to bigotry and fear disregard for truth and disdain for governing have become the norm But they are more a symptom than the cause The Path to Paralysis examines changes in political culture during the past 60 years conflict over race religion and gender wrenching economic changes and growing concentration of wealth the end of the Cold War hardening regional divisions and dramatic changes in communications that made Donald Trump possible if not inevitable Long in the making these cross currents came together in the early 21st century as the United States experienced the deepest recession since the 1930s and elected its first Black president to create the perfect storm The result was toxic and deeply polarised politics that threatened the existence of constitutional government Why Historically Black Colleges and Universities Matter Marybeth Gasman, 2025 With a personal and narrative style preeminent educational historian Marybeth Gasman presents her research pertaining to HBCUs conducted over her 25 year career In addition to conducting historical and large scale qualitative studies related to HBCUs Gasman has also served as a board of trustee member at three HBCUs Paul Quinn College St Augustine University and Morris Brown College She has received wide recognition from HBCUs for her scholarly and justice oriented work including the Ozell Sutton Medallion for Justice from Philander Smith College and the Presidential Medallion from Wilberforce University This volume brings together Gasman's

most influential historical essays on the themes of leadership philanthropy art curriculum intellectual debate Black agency desegregation and Critical Race Theory Scholars and students alike will benefit from the way Gasman makes complex historical ideas accessible and engaging by employing a variety of historical methods that include oral history archival research legal research text and image analysis historiography and prosopography Readers will discover the multitude of ways that historical research can be approached and brought to life Book Features Concrete examples of how to use a variety of methodological approaches related to history A clear and accessible presentation of history to help new scholars find their voices Diverse topics related to HBCUs featuring key luminaries across these venerable institutions Cuts across disciplinary boundaries including American history education art history sociology political science and law An introduction that explores the author's reasons for doing this research and an epilogue examining the methods used
