Something Amiss:

Moore's Paradox Mitchell S. Green, John N. Williams, 2007-01-11 G E Moore famously observed that to assert I went to the pictures last Tuesday but I don't believe that I did would be absurd Moore calls it a paradox that this absurdity persists despite the fact that what I say about myself might be true Over half a century later such sayings continue to perplex philosophers and other students of language logic and cognition Ludwig Wittgenstein was fascinated by Moore's example and the absurdity of Moore's saying was intensively discussed in the mid 20th century Yet the source of the absurdity has remained elusive and its recalcitrance has led researchers in recent decades to address it with greater care In this definitive treatment of the problem of Moorean absurdity Green and Williams survey the history and relevance of the paradox and leading approaches to resolving it and present new essays by leading thinkers in the area Contributors Jonathan Adler Bradley Armour Garb Jay D Atlas Thomas Baldwin Claudio de Almeida Andr Gallois Robert Gordon Mitchell Green Alan H Jek Roy Sorensen John Williams

strive to replicate in English something of the majesty and beauty of Augustine's Latin style and those that opt instead to convey the careful precision of his philosophical terminology and argumentation. Finally, Williams has succeeded in capturing both sides of Augustine's mind in a richly evocative, impeccably reliable, elegantly readable presentation of one of the most impressive achievements in Western thought: Augustine's *Confessions*.
