[British Museum Catalogue of printed Books](#), 1890 *Borders of Belonging* Mads Daugbjerg, 2014-02-01 In an era cross-cut with various agendas and expressions of national belonging and global awareness, the nation as a collective reference point and experienced entity stands at the center of complex identity struggles. This book explores how such struggles unfold in practice at a highly symbolic battlefield site in the Danish-German borderland. Comprised of an ethnography of two profoundly different institutions, a conventional museum and an experience-based heritage center, it analyses the ways in which staff and visitors interfere with, relate to, and literally make sense of the war heritage and its national connotations. *Borders of Belonging* offers a comparative in-depth analysis of the practices and negotiations through which history is made and manifested at two houses devoted to the interpretation of one event: the decisive battle of the 1864 war in which Otto von Bismarck, on his way to uniting the new German Empire, led the Prussian army to victory over the Danish. Working through his empirical material to engage with and challenge established theoretical positions in the study of museums, modernity, and tourism, Mads Daugbjerg demonstrates that national belonging is still a key cultural concern even as it asserts itself in novel, muted, and increasingly experiential ways. *Experiencing 11 November 2018* Shanti Sumartojo, 2020-11-10 In a unique collection of international and interdisciplinary research, this book focuses on commemorative events around the world on the same day: 11 November 2018, the centenary of Armistice Day, the end of the First World War. It argues that we need to move beyond discourse, narrative, and how historical events are represented to fully understand what commemoration does socially, politically, and culturally. Adopting an experiential reframing, treats sensory, affective, and emotional feelings as fundamental to

how we collectively understand shared histories and through them shared identities The volume features 15 case studies from ten countries covering a variety of settings and national contexts specific to the First World War Together the chapters demonstrate that a new conceptualisation of commemoration is needed one that attends to how it feels [Catalogue of Printed Books in the Library of the British Museum](#) British Museum. unidirectional process but rather as one shaped by a range of factors at the local level including language ideologies and mediatization A concluding chapter by eminent sociolinguist David Britain brings together the conclusions drawn from the preceding chapters and reinforces their wider implications within the field of sociolinguistics Offering new insights into language standardization and language change this book will be of particular interest to students and scholars in sociolinguistics dialectology and linguistic anthropology

Caught in the Enchanter's Net Amalie Skram, 2003 Amalie Skram was a major nineteenth century Norwegian novelist whose novels such as *Lucie* evoke both the atmosphere of her native town and the battles of the sexes at a time when sexual morality was the subject of a great Nordic debate Erik Skram was *Minority Education and Ethnic Survival* Michael Byram, 1986 This book is a study of the relationship between the education system of a minority and its ethnic identity The study is based on ethnographic fieldwork in one of the minority schools and focuses particularly on the experience of school leavers

The Well Spring of the Goths Ingemar Nordgren, 2004 The Goths a rumored people first known by history around the river Vistula in present Poland was the people that more than other contributed to the fall of the Roman Empire It was however also the Goths who preserved the Roman culture against other Germanic tribes Earlier it has been generally assumed the Goths originated in Scandinavia but during the 20th c many scholars have grown skeptical The author has using both Classical and Nordic sources and supplementary sciences made probable there is an intimate connection between the Goths and the Nordic countries Consequently it is quite possible that at least part of the Goths have a Nordic origin The book rests on the basic hypothesis that the Goths are not a people but a number of tribes and peoples united through a common religious cultic origin The old dispute concerning the relationship between Svear and Gautar also gets quite a new meaning The book is interdisciplinary and embraces history religion arts linguistics and archaeology In 1999 Ingemar Nordgren received his Ph D at Odense University Denmark The book builds to a considerable extent on his dissertation but has been updated and partly rewritten with brand new material
