testing ideas and interpretations against some kind of external reality But in musicology the kinds of empirical approaches familiar in the social sciences have played a relatively marginal role being generally restricted to inter disciplinary areas such as psychology and sociology of music Rather than advocating a new kind of musicology Empirical Musicology provides a guide to empirical approaches that are ready for incorporation into the contemporary musicologist s toolkit Its nine chapters cover perspectives from music theory computational musicology ethnomusicology and the psychology and sociology of music as well as an introduction to musical data analysis and statistics This book shows that such approaches could play an important role in the further development of the discipline as a whole not only through the application of statistical and modeling methods to musical scores but also and perhaps more importantly in terms of understanding music as a complex social practice

Dark Mother Lucia Chiavola Birnbaum, 2001 Bringing a feminist perspective to contemporary findings of geneticists and archeologists Lucia Chiavola Birnbaum cultural historian points out that the oldest veneration we know is of a dark mother of central and south Africa whose signs ochre red and the pubic V were taken by african migrants after 50 000 BCE to caves and cliffs of all continents The oldest sanctuary in the world was created in 40 000 BCE by african migrants in Har Karkom later called Mt Sinai foundation place of judaism christianity and islam Lucia documents the continuing memory of the dark mother and her values in prehistoric images of the dark mother in historic black madonnas and in other dark women

divinities whose sanctuaries are on african paths She tracks the memory in rituals and stories of her sicilian grandmothers in persecution of dark others in patriarchal Europe and the United States in the rise of nonviolent dark others since the 1960s in the banners of the 1995 world conference of women at Beijing and in art She finds the dark mother s values justice with compassion equality and transformation in everyday and celebratory rituals of the world s subaltern cultures and suggests that the image and values are in the submerged memories of everyone
