Cello's Tears Geza Tatrallyay, 2015-06-06 While poetry often uses precise phrases and carefully constructed stanzas to create a kind of written music author Geza Tatrallyay ups the emotional and structural ante through literary translation The result is Cello's Tears a testament to universal truths that is unhindered by the constraints of a single language A multilingual world traveler Tatrallyay wrote his debut poetry collection over many years and in many locales as evidenced by the poems myriad forms and origins including original haikus tankas and translations from German French and Hungarian Beyond their varying origins the poems playfully push the boundaries of meaning through the use of unconventional words and phrases Many verses inspired by the deeply emotive quality of great music evoke a similar sentimental response in the reader And in a final ode to the musical quality of the poet's work Tatrallyay arranges the verses in four parts just as a composer arranges a symphony Emotion form and musically influenced symbolism deliver a compulsively readable collection that will delight lovers of contemporary poetry American Writers Elizabeth H. Oakes, 2004 American Writers focuses on the rich diversity of American novelists **Dudley Randall, Broadside Press, and the Black Arts Movement in Detroit, 1960-1995** Julius E. Thompson, 2005-02-15 In 1965 Dudley F. Randall founded the Broadside Press a company devoted to publishing distributing and promoting the works of black poets and writers In so doing he became a major player in the civil rights movement Hundreds of black writers were given an outlet for their work and for their calls for equality and black identity Though Broadside was established on a minimal budget Randall's unique skills made the press successful He was trained as a librarian and had spent decades studying and writing poetry most importantly Randall was totally committed to the advancement of black literature The famous and relatively unknown sought out Broadside including such writers as Gwendolyn Brooks Margaret Walker Mae Jackson Lance Jeffers Etheridge Knight Sonia Sanchez Nikki Giovanni Audre Lorde and Sterling D. Plumpp His story is one of battling to promote black identity and equality through literature and thus lifting the cultural lives of all Americans **Anthology of Magazine Verse and Yearbook of American Poetry**, 1985

Transnationalism and Translation in Modern Chinese, English, French and Japanese Literatures Ryan Johnson,2020-12-15 The theory of literary worlds has become increasingly important in comparative and world literatures But how are the often contradictory elements of Eastern and Western literatures to cohere in the new worlds such contact creates Drawing on the latest work in philosophical logic and analytic Asian philosophy this monograph proposes a new model of literary worlds that is best suited to comparative literature dealing with Western and East Asian traditions Unlike much discussion of world literature anchored in North American traditions featured here is the transnational work of artists philosophers and poets writing in English French Japanese and Mandarin in the twentieth century Rather than imposing sharp borders this book suggests that vague boundaries link Eastern and Western literary works and traditions and that degrees of distance can better help us to see the multiple dimensions that both distinguish and join together literary worlds East and West As such it enables us to grasp not only how East Asian and Western writers translate one another s works into their own languages and traditions but also how modern writers East and West modify their own traditions in order to make them fit in the new constellation of literary worlds brought about by the complex flow of literary information across twentieth century Eurasia

A New Way of Seeing Michael Sarnowski,2025-06-04 A New Way of Seeing considers the poetry of five writers Louis Simpson Keith Douglas Richard Hugo Howard Nemerov and Randall Jarrell whose work draws on their activities as soldiers in World War II Basing his examination on extensive primary source research Michael Sarnowski identifies distance both literal and figurative and traumatic memory as two interconnected elements of how these poets internalized the war and made sense of the events they witnessed The book is structured on a gradient related to each poet s proximity to combat as the chapters in turn focus on an infantryman Simpson a tank commander Douglas a bombardier Hugo a pilot Nemerov and a stateside flight instructor Jarrell Sarnowski relies on a wealth of archival material overlooked by previous scholarship including poem drafts correspondence flight logs and personal belongings The conclusion revisits notions of legacy and representation by assessing factors that contributed to the early labeling of World War II soldiers as a Silent Generation in contrast to the outpouring of poetry published during and following the First World War By exploring how poets processed their wartime experiences A New Way of Seeing offers a stark reminder of why it remains vital to recognize the physical mental and psychological consequences endured by veterans
