The American Slave Oklahoma Narratives Supp Ser 1 Vol 1:

The WPA Oklahoma Slave Narratives T. Lindsay Baker, Julie Philips Baker, 1996 I never talk to nobody bout this was the response of one aged African American when asked by a Works Project Administration field worker to share memories of his life in slavery and after emancipation He and other ex slaves were uncomfortable with the memories of a time when black and white lives were interwoven through human bondage Yet the WPA field workers overcame the old people's reticence and American West scholars T Lindsay Baker and Julie P Baker have collected all the known WPA Oklahoma slave narratives in this volume for the first time including fourteen never published before Their careful editorial notes detail what is known about the interviewers and the process of preparing the narratives

The American Slave: Texas narratives George P. Rawick, 1979 *The American Slave* Kenneth L. Burg, Jan Hillegas, Jules Rawick, Che Rawick, 1977 The Big Muddy

Christopher Morris, 2012-07-24 In The Big Muddy the first long term environmental history of the Mississippi Christopher Morris offers a brilliant tour across five centuries as he illuminates the interaction between people and the landscape from early hunter gatherer bands to present day industrial and post industrial society Morris shows that when Hernando de Soto arrived at the lower Mississippi Valley he found an incredibly vast wetland forty thousand square miles of some of the richest wettest land in North America deposited there by the big muddy river that ran through it But since then much has changed for the river and for the surrounding valley Indeed by the 1890s the valley was rapidly drying Morris shows how centuries of increasingly intensified human meddling including deforestation swamp drainage and levee construction led to drought disease and severe flooding He outlines the damage done by the introduction of foreign species such as the Argentine nutria which escaped into the wild and are now busy eating up Louisiana's wetlands And he critiques the most monumental change in the lower Mississippi Valley the reconstruction of the river itself largely under the direction of the Army Corps of Engineers Valley residents have been paying the price for these human interventions most visibly with the disaster that followed Hurricane Katrina Morris also describes how valley residents have been struggling to reinvigorate the valley environment in recent years such as with the burgeoning catfish and crawfish industries so that they may once again live off its natural abundance Morris concludes that the problem with Katrina is the problem with the Amazon Rainforest drought and famine in Africa and fires and mudslides in California it is the end result of the ill considered bending of natural environments to human purposes

They Were Her Property Stephanie E. Jones-Rogers, 2020-01-07 Winner of the Los Angeles Times Book Prize in History A bold and searing investigation into the role of white women in the American slave economy Compelling Renee Graham Boston Globe Stunning Rebecca Onion Slate Makes a vital contribution to our understanding of our past and present Parul Sehgal New York Times Bridging women s history the history of the South and African American history this book makes a bold argument about the role of white women in American slavery Historian Stephanie E Jones Rogers draws on a variety of sources to show that slave owning women were sophisticated economic actors who directly engaged in and benefited from the South s slave market Because women typically inherited more slaves than land enslaved people were often their primary source of wealth Not only did white women often refuse to cede ownership of their slaves to their husbands they employed management techniques that were as effective and brutal as those

used by slave owning men White women actively participated in the slave market profited from it and used it for economic and social empowerment By examining the economically entangled lives of enslaved people and slave owning women Jones Rogers presents a narrative that forces us to rethink the economics and social conventions of slaveholding America The Archaeology of Mothering Laurie A. Redeeming the South Paul Harvey,2000-11-09 Together and separately black and white Baptists created different but intertwined cultures that profoundly shaped the South Adopting a biracial and bicultural focus Paul Harvey works to redefine southern religious history and by extension southern culture as the product of such interaction the result of whites and blacks having drawn from and influenced each other even while remaining separate and distinct Harvey explores the parallels and divergences of black and white religious institutions as manifested through differences in worship styles sacred music and political agendas He examines the relationship of broad social phenomena like progressivism and modernization to the development of southern religion focusing on the clash between rural southern folk religious expression and models of spirituality drawn from northern Victorian standards In tracing the growth of Baptist churches from small outposts of radically democratic plain folk religion in the mid eighteenth century to conservative and culturally dominant institutions in

the twentieth century Harvey explores one of the most impressive evolutions of American religious and cultural history
