Jaggar,1988-10-24 To find more information about Rowman and Littlefield titles please visit [www rowmanlittlefield com](http://www.rowmanlittlefield.com) **The Oxford Handbook of Dance and Ethnicity** Anthony Shay,Barbara Sellers-Young,2016-04-20 Dance intersects with ethnicity in a powerful variety of ways and at a broad set of venues Dance practices and attitudes about ethnicity have sometimes been the source of outright discord as when African Americans were and sometimes still are told that their bodies are not right for ballet when Anglo Americans painted their faces black to perform in minstrel shows when 19th century Christian missionaries banned the performance of particular native dance traditions throughout much of Polynesia and when the Spanish conquistadors and church officials banned sacred Aztec dance rituals More recently dance performances became a locus of ethnic disunity in the former Yugoslavia as the Serbs of Bosnia attended dance concerts but only applauded for the Serbian dances presaging the violent disintegration of that failed state The Oxford Handbook of Dance and Ethnicity brings together scholars from across the globe in an investigation of what it means to define oneself in an ethnic category and how this category is performed and represented by dance as an ethnicity Newly commissioned for the volume the chapters of the book place a reflective lens on dance and its context to examine the role of dance as performed embodiment of the historical moments and associated lived identities In bringing modern dance and ballet into the conversation alongside forms more often considered ethnic the chapters ask the reader to contemplate previous categories of folk ethnic classical and modern From this standpoint the book considers how dance maintains challenges resists or in some cases evolves new forms of identity based on prior categories Ultimately the goal of the book is to acknowledge the depth of research that has been undertaken and to promote continued research and conceptualization of dance and its role in the creation of ethnicity Dance and ethnicity is an increasingly active area of scholarly inquiry in dance studies and ethnomusicology alike and the need is great for serious scholarship to shape the contours of these debates The Oxford Handbook of Dance and Ethnicity provides an authoritative and up to date survey of original research from leading experts which will set the tone for future scholarly conversation *Made From This Earth* Vera Norwood,2014-07-01 The broad sweep of environmental and ecological history has until now been written and understood in predominantly male terms In *Made From This Earth* Vera Norwood explores the relationship of women to the

natural environment through the work of writers illustrators landscape and garden designers ornithologists botanists biologists and conservationists Norwood begins by showing that the study and promotion of botany was an activity deemed appropriate for women in the early 1800s After highlighting the work of nineteenth century scientific illustrators and garden designers she focuses on nature s advocates such as Rachel Carson and Dian Fossey who differed strongly with men on both women s nature and the value of the natural world These women challenged the dominant male controlled ideologies often framing their critique with reference to values arising from the female experience Norwood concludes with an analysis of the utopian solutions posed by ecofeminists the most recent group of women to contest men over the meaning and value of nature Ending Auschwitz Marc H.
