1870 and 1930 the contours on modernity were taking shape especially the connections between technology politics and aesthetics The trilogy The Nihilist Order traces the genealogy of the nihilist totalitarian syndrome Until now nihilism and totalitarianism were considered opposites one an orderless state of affairs the other a strict regimented order On closer scrutiny however a surprising affinity can be found between these two concepts that dominated the history of the first half of the twentieth century Starting with Nietzsche's philosophy this book traces the development of an intellectual school characterised by the paradoxical dual purpose of a wish to destroy coupled with a strong desire to create imposing structures This explosive combination of nihilist leanings together with a craving for totalitarianism was an ideal of philosophers cultural critics political theorists engineers architects and aesthetes long before it materialised in flesh and blood not only in technology but also in fascism Nazism bolshevism and radical European political movements Friedrich Nietzsche Georges Sorel the Italian Futurists led by Filippo Tommaso Marinetti and Ernst Jünger were all well known intellectual and cultural figures Here they are seen and understood in a different light as creators of a modern political mythology that became a source of inspiration for belligerent ideological camps Among the ideas propagated by this school and later adopted by totalitarian regimes were historical nihilism a revolt against the rationalistic and universalistic pretensions of the Enlightenment an affirmation of the dynamism of modern life and the replacement of the traditional Judeo-Christian values of good and evil by other dualities such as authenticity and decadence Concurrently there took place affirmation of the technological era the creation of a new man and a violent order and the birth of a new political style in place of traditional world views When channelled into the political sphere these aesthetic nihilist ideas paved the way for the rise of totalitarianism

*Israel Digest*, 1954      *Truth Versus Man's Religious Systems* Terry W. McHenry, 2018-01-27 The book in overview is historical and instructional in content with the focus being on the Biblical text in terms of its original form and language and in consideration of its full and proper context linguistically textually historically culturally and literarily It stresses the importance of moving from a knowledge of the Bible to an understanding of its life giving instructions being studied in its entirety as a gift to mankind from a loving creator Elohim The thrust of the book is accordingly threefold An indictment of two of man's religious systems Judaism and Christianity for syncretism corruption of Elohim's written Word of truth and abuses of religious authority plus promulgation of religious traditions not aligned with the whole truth of Elohim's Word A call to return to the one source of truth the written Word of Elohim understood in its originally written form and in its full and proper context Providing the equipping and study tools necessary to move from a mere knowledge of the Word to an understanding of its life giving instructions how to live a redeemed life as Elohim intended for all mankind

[The Oxford History of Modern German Theology, Volume 1: 1781-1848](#) Grant Kaplan, Kevin M. Vander Schel, 2023-05-20 From the closing decades of the eighteenth century German theology has been a major intellectual force within modern western thought closely connected to important developments in idealism romanticism historicism phenomenology and hermeneutics

Despite its influential legacy however no recent attempts have sought to offer an overview of its history and development Oxford History of Modern German Theology Vol I 1781 1848 the first of a three volume series provides the most comprehensive multi authored overview of German theology from the period from 1781 1848 Kaplan and Vander Schel cover categories frequently omitted from earlier overviews of the time period such as the place of Judaism in modern German society race and religion and the impact of social history in shaping theological debate Rather than focusing on individual figures alone Oxford History of Modern German Theology Vol I 1781 1848 describes the narrative arc of the period by focusing on broader intellectual and cultural movements ongoing debates and significant events It furthermore provides a historical introduction to each of the chronological subsections that divides the book Moreover unlike previous efforts to introduce this time period and geographical region the volume offers chapters covering such previously neglected topics as religious orders the influence of Romantic art secularism religious freedom and important but overlooked scholarly initiatives such as the Corpus Reformatorum Attention to such matters will make this volume an invaluable repository of scholarship and knowledge and an indispensable reference resource for decades to come

*Arthur Rupp and the Production of Pre-Israeli Culture* Etan Bloom, 2011-03-18 Arthur Rupp's immense contribution to the Zionist movement gave him the title The Father of Jewish Zionist settlement in Palestine Nevertheless the common narrative sets Rupp's historical persona in an ambivalent position and suppresses his formative role and heritage Part of the reason for this is that in many ways his history causes a crack to appear in the Zionist national cover stories This study utilizes innovative archival research and contains provocative theses which make us view the foundation of Israeli culture differently It addresses the cultural interaction between the German Sonderweg with all its proto Nazi and völkische ideas and Palestinian Zionism The study therefore exposes the sources and presence of internal Jewish racism while also analysing the anti Semitic aspect of Pre Israeli culture A particularly important section details Rupp's crucial influence on the Labor Movement and the colonization of the Land of Israel Palestine
