"Neil Harrison's best poems, like good dogs or good children, know their master and his
discretion and so never let their tongues hang loose. From his uplands, his poems are carefully
brought down to the ground as good poems, in chosen style."

commentary on this book and with its completion I regard my own working career as concluded The prevailing habit of commentators is founded on the general consensus of opinion that whatever else it may be Hegel s Phenomenology is not the logical Science that he believed it was This is the received view that I want to overthrow But if I am right then an acceptably continuous chain of argument paragraph by paragraph ought to be discoverable in the text *The Oxford Companion to American Literature* James David Hart,1948 *The Animal Kingdom* Mary Fabilli,1975 **The Writers Directory** ,2003
 The Times Literary Supplement ,1982 **Contemporary Art in Texas** Patricia Covo Johnson,1995 Since the 1960s the contemporary art scene in Texas has developed impressively and the exciting new artforms from this State have reached a growing and appreciative audience Museums have expanded the scope of their exhibitions more artists and art patrons have come to live in the metropolitan areas and the fierce independence of Texas art has been increasingly recognized Now in the 1990s and for the first time three generations of artists are working simultaneously alongside each other Artists in Texas work in multiple modes and frequently with unorthodox materials away from the theoretical and commercial art world epicenters of New York and Los Angeles But the sheer size of Texas underscores the complexity of the art scene taken as a whole contemporary art in Texas has a nuance that is all its own and reflects it historical myths the dreams of its heroes and the social and political realities which pertain in the 1990s This book addresses all of these themes and provides an insightful overview of contemporary art in this unique part of the country
