Handbook of Materials for Wind Musical Instruments Voichita Bucur,2019-09-06 This book addresses key questions about the materials used for the wind instruments of classical symphony orchestra such as flutes clarinets saxophones oboes bassoons and pipe organs The content of this book is structured into four parts Part 1 Description of materials for wind instruments deals with wood species and

materials for reeds used for making clarinet oboe and bassoon and with metallic materials and alloys for horn trumpet trombone etc Auxiliary materials associated with the manufacturing of wind instruments are felt cork leather and parchment

Part 2 Basic acoustics of wind instruments in which are presented succinctly some pertinent aspects related to the physics of the resonant air column An important aspect discussed is related to the effect of wall material on the vibration modes of the walls of wind instruments The methods for measuring the acoustical properties of wind instruments are presented

Part 3 Manufacturing of wind instruments describes the technology used in manufacturing metallic tubes and pipes made of wood

Part 4 The durability and degradation of materials addresses data about methods for cleaning wind instruments studies factors producing degradation of organ pipes describes methods of conservation and restoration of brass instruments and of historical pipe organs Finally the properties of marble are described being the only one nondegradable and sustainable material used for pipes for organs
