THE PRINCIPLES OF SHARI'AH: TEXTS AND MATERIALS HASBOLLAH BIN MAT SAAD, 2020-05-07
Compilation Series The Principles of Shari'ah Texts and Materials is a solid application oriented text for students taking law subjects focusing on the Shari'ah matters Many new features make this edition a richer and stronger learning resource for students Several factors motivated the authors to write this book After having the experience in legal field and teaching for more than 20 years it became clear that there was a definite need for more detail materials in this area In addition there was need for a book which would give full recognition to an easier method and the authors felt it was time for a text which would develop the ideas and methods with this in mind This book covers a thorough discussion of the development of Islamic Law in Malaysia A major audience for the book will be students studying the law subjects The order of topics however provides a degree of flexibility so that the book can be of interest to different readers through basic concepts until the advanced concepts i.e. the discussion of the areas in a very comprehensive manner The purpose of this book is to take the readers on an introduction to the principles of Shari'ah by which the meaning of such subject at basic level is better understood Hopefully this book can be benefited by the readers in their journey to success

The Muslim Contribution to Mathematics Ali Abdullah Al-Daffa', 2020-09-10 This book first published in 1977 discusses the Muslim contribution to mathematics during the

golden age of Muslim learning from the seventh to the thirteenth century It was during this period that Muslim culture exerted powerful economic political and religious influence over a large part of the civilised world The work of the Muslim scholars was by no means limited to religion business and government They researched and extended the theoretical and applied science of the Greeks and Romans of an earlier era in ways that preserved and strengthened man s knowledge in these important fields Although the main object of this book is to trace the history of the Muslim contribution to mathematics during the European Dark Ages some effort is made to explain the progress of mathematical thought and its effects upon present day culture Certain Muslim mathematicians are mentioned because of the important nature of their ideas in the evolution of mathematical thinking during this earlier era Muslim mathematicians invented the present arithmetical decimal system and the fundamental operations connected with it addition subtraction multiplication division raising to a power and extracting the square root and the cubic root They also introduced the zero symbol to Western culture which simplified considerably the entire arithmetical system and its fundamental operations it is no exaggeration if it is said that this specific invention marks the turning point in the development of mathematics into a science
