Anderson, 1927 **The Architecture of Influence** Amanda Reeser Lawrence, 2023-11-21 How do we create the new from the old The Architecture of Influence explores this fundamental question by analyzing a broad swath of twentieth century architectural works including some of the best known examples of the architectural canon modern and postmodern through the lens of influence The book serves as both a critique of the discipline's long standing focus on genius and a celebration of the creative act of revisioning and reimagining the past It argues that all works of architecture not only depend on the past but necessarily alter rewrite and reposition the traditions and ideas to which they refer Organized into seven chapters Replicas Copies Compilations Generalizations Revivals Emulations and Self Repetitions the book redefines influence as an active process through which the past is defined recalled and subsequently redefined within twentieth century architecture **A Public and Political Christ** Bart B. Bruehler, 2011-08-05 Was Jesus a public figure A political figure Yes according to Luke's gospel Jesus was a Christ who was both public and political Recent developments in the theory and practice of the study of space have provided tools to classify ancient social spatial spheres with greater nuance and depth A broad survey of literary and archaeological

resources in the ancient world as well as an in depth look at Plutarch s Political Precepts and Philostratus s Life of Apollonius reveals that the familiar dichotomy of public and private does not suffice to describe the Hellenistic Roman milieu that shaped the author and audience of the third gospel This study employs social spatial analysis to explore how Luke uses the power of place to portray Jesus frequently engaging the unofficial public sphere and local politics specifically in 18 35 19 43 the public healing of the blind beggar the unexpected impact of Zacchaeus s hospitality the political implications of the parable of the king and his subjects and the publicity and politics of Jesus entry into Jerusalem The result is an illuminating look at the overall spatial character of Luke s gospel the development of Christianity in the latter half of the first century and the role of place in contemporary Christianity

Making Dystopia James Stevens Curl,2018-08-23 In Making Dystopia distinguished architectural historian James Stevens Curl tells the story of the advent of architectural Modernism in the aftermath of the First World War its protagonists and its astonishing almost global acceptance after 1945 He argues forcefully that the triumph of architectural Modernism in the second half of the twentieth century led to massive destruction the creation of alien urban landscapes and a huge waste of resources Moreover the coming of Modernism was not an inevitable seamless evolution as many have insisted but a massive unparalleled disruption that demanded a clean slate and the elimination of all ornament decoration and choice Tracing the effects of the Modernist revolution in architecture to the present Stevens Curl argues that with each passing year so called iconic architecture by supposed star architects has become more and more bizarre unsettling and expensive ignoring established contexts and proving to be stratospherically remote from the aspirations and needs of humanity In the elite world of contemporary architecture form increasingly follows finance and in a society in which the haves have more and more and the have nots are ever more marginalized he warns that contemporary architecture continues to stack up huge potential problems for the future as housing costs spiral out of control resources are squandered on architectural bling and society fractures This courageous passionate deeply researched and profoundly argued book should be read by everyone concerned with what is around us Its combative critique of the entire Modernist architectural project and its apologists will be highly controversial to many But it contains salutary warnings that we ignore at our peril And it asks awkward questions to which answers are long overdue
