**Creative Methods in Military Studies** Alice Cree, 2023-08-02 What can creative methods offer our understanding of military power and militarised cultures What constitutes creative research in military studies And what are some of the challenges of this type of work This edited volume brings together authors working at the cutting edge of creative research in military studies to explore how creativity and creative practice can shed new light on often taken for granted concepts in critical military research In twelve empirically and conceptually rich chapters authors from a diverse range of disciplinary fields draw on theatre model making songwriting dance spoken word paper making and more to question what military research can and should look like As a collection the book explores topics of central concern in military studies such as militarism military experience and militarised cultures as well as more practical questions around ethics positionality and research relationships This path breaking new volume considers what exactly constitutes creativity in critical military research while offering the tools for researchers to think anew about big questions in the field

**The Architectural Forum**, 1918 **Assembling the Architect** George Barnett Johnston, 2020-01-23 Assembling the Architect explores the origins and history of architectural practice It unravels the competing interests that historically have structured the field and cultivates a deeper understanding of the contemporary profession Focusing on the period 1870 to 1920 when the foundations were being laid for the U S architectural profession that we recognize today this study traces the formation and standardization of the fundamental relationships among architects owners and builders as codified in the American Institute of Architects very first Handbook of Architectural Practice It reveals how these archetypal roles have always been fluid each successfully redefining their own agency with respect to the others in the constantly shifting political economy of building Far from being a purely historical study the book also sheds light on today's digitally enabled profession Contemporary architectural tools and disciplinary ideals continue to be shaped by the same fundamental tensions and emergent modes of practice such as BIM Building Information Modelling and IPD Integrated Project Delivery represent the realization of programs and agendas that have been over a century in play Essential reading for professional practice courses as a contextual and historical companion to the Handbook Assembling the Architect provides a critical perspective of the profession that is fundamental to understanding current architectural practice

**Asymptote** Robert Ziegler, 2009 Asymptote An Approach to Decadent Fiction offers a radically new approach to the psychology of Decadent creation Rejecting traditional arguments that Decadence is a celebration of deviance and exhaustion this study presents the fin de siècle novel as a transformative process a quest for health By allowing the writer to project into fiction unwanted traits and destructive tendencies by permitting the playful invention of provisional identities Decadent creation itself becomes a dynamic act of creative regeneration In describing the interrelationship of Decadent authors and their fictions Asymptote uses the mathematical figure of the asymptote to show how they converge then split apart and grow distant The author's approach to the facsimile selves he plays with and discards is the curve that never merges with his

authorial identity In successive chapters this study describes the Decadents experimentation with perversion Huysmans's *A rebours* and Mendes's *Zo har* and their subsequent validation of social regulation and creative discipline It examines magic and its appeal to fantasies of elitism and omnipotence Pöhl's *Le Vice supreme* and Villiers's *Ax l* then shows authors embracing the values of community and service It considers the Decadent text as a vehicle of change in which an artist ventilates fantasies of aggression and revenge Mirbeau's *Le Journal d'une femme de chambre* and Rachilde's *La Marquise de Sade* then employs writing as the means by which these feelings are discharged It examines creation as a form of play *une ali nation gr ce laquelle l'esprit se r cup re sous la forme des autres* Schwob's *Vies imaginaries* and Lorrain's *Histoires de masques* yet notes the Decadents decision to return to a single generative center Finally it examines creation as an expression of artistic transience and failure yet shows the Decadents success in commemorating the very forces of disintegration Rodenbach's *L'Art en exil* In considering the Decadents insistence on subjectivism and aloneness this study concludes Gourmont's *Sixtine* by showing their wish to escape the prison of identity and to redefine their art as cooperative creation

*Lighting Dimensions*, 2004-07 *Why Architects Draw* Edward Robbins, Edward Cullinan, 1994 Examines the social uses of architectural drawing how it acts to direct architecture how it helps define what is important about a design and how it embodies claims about the architect's status and authority Case study narratives are included with drawings from projects at all stages

*Times of Creative Destruction* Alexander Tzonis, Liane Lefaivre, 2016-12-08 *Times of Creative Destruction* is about the years that followed the end of WWII one of the most seminal and dramatic epochs in human history during which extraordinary star buildings were born cities exploded and an unprecedented world of a Third Ecology emerged Never before was there such a flurry of daring mega constructions such daring spatial acrobatics star buildings by star architects attained by star developers mega constructions technological feats and flourishing spatial acrobatics But for all its exhilarating creativity this was also an era of unanticipated intractable irreversible destruction reducing the uniqueness and diversity of cultural social and ecological peaks and valleys of our world to a desert flatland environmental inequality and unhappiness This book critically discusses and reevaluates these contradictory events bringing together and commenting on a selection of shorter key texts by Tzonis and Lefaivre the product of a rare research and writing partnership The texts published between the early 1960s and the present are significant as documents that inform about the period They are also important and timely because of their critical and influential role in the debates of this era both creative and destructive

**Deviant Design** Craig Martin,2022-07-14 Craig Martin addresses the transgressive or deviant aspects of design design that straddles the divide between the licit and illicit the legal and illegal in a variety of ways Martin argues that design is not necessarily for the social good but that it is immersed in the social realm in all its contradictions and confusions Through a series of case studies he explores a wide range of social practices that employ illicit forms of design thinking including early computer hacking and present day hacker culture in which everyday objects are repurposed and deliberately misused the cultures of reproduction counterfeit and pirated versions of classic and luxury designs and the use of material practices by smugglers to conceal drugs within consumer goods and luggage Deviant Design contends that these amateur and illicit practices challenge the normative idea of the professional designer or maker Rather than being reliant on the services of institutionalized design professionals the adhocist practitioner displays forms of innovative design knowledge in understanding how artefacts have an inherent potential to be misused or repurposed

**The Handbook of Interior Architecture and Design** Graeme Brooker,Lois Weinthal,2013-10-24 The Handbook of Interior Architecture and Design offers a compelling collection of original essays that seek to examine the shifting role of interior architecture and interior design and their importance and meaning within the contemporary world Interior architecture and interior design are disciplines that span a complexity of ideas ranging from human behaviour and anthropology to history and the technology of the future Approaches to designing the interior are in a constant state of flux

reflecting and adapting to the changing systems of history culture and politics It is this process that allows interior design to be used as evidence for identifying patterns of consumption gender identity and social issues The Handbook of Interior Architecture and Design provides a pioneering overview of the ideas and arrangements within the two disciplines that make them such important platforms from which to study the way humans interact with the space around them Covering a wide range of thought and research the book enables the reader to investigate fully the changing face of interior architecture and interior design while offering questions about their future trajectory

**Multicultures and Cities** Gösta Arvastson, Tim Butler, 2006 In the planning of city development it is important that different groups should be able to live in peaceful coexistence This is how the concept multicultural came about During the 1970s multiculturalism was developed into a model of political democracy a strategy for society's rapid change The term multiculturalism suggests that contemporary urban cultures somehow co exist in a condition of mutual respect and possible equality The new multiculturalism seems very different from the migration that took place in the 1960s and 1970s The essays in this collection address the general themes of ethnicity and contemporary European urbanism in many different ways examining a wide variety of cities and city pairings The common bond in these writings is the impact that a contemporary merging of ethnicity and culture is having on the new urbanity that is now widely accepted as driving the new Europe The effect is far greater than might be predicted from the relative social powerlessness of many of the bearers of these cultures At the same time existing urban processes continue to ensure the marginality of these groups

Ethnologia Europaea Vol. 34:2 Gösta Arvastson, Tim Butler, 2004 Ethnologia Europaea has set itself the task of breaking down not only the barriers which divide research into Europe from general ethnology but also the barriers between the various national schools within the continent With this manifesto Ethnologia Europaea was started in 1969 Since then it has acquired a central position in the international co operation between ethnologists in the various European countries in the East as well as in the West It is however a journal of topical interest not only for ethnologists but also for anthropologists social historians and others studying the social and cultural forms of everyday life in recent and historical European societies
