THE HISTORIES Herodotus,2023-11-30 Herodotus The Histories stands as a monumental work in the canon of ancient literature offering a detailed chronicle of the Greco Persian wars and a rich tapestry of the cultural and political landscapes of the era Written in a narrative style that blends prose with elements of poetry Herodotus employs a unique historiographical approach interweaving anecdotal accounts oral traditions and meticulous observations to illuminate the complexities of human behavior and fate His inquiries reflect a profound interest in causality and the interplay between divine and human agency situating his work at the intersection of history mythology and ethnography Herodotus often referred to as the Father of History was born in Halicarnassus around 484 BCE His extensive travels throughout the known world heavily influenced his perspective as he encountered diverse cultures and customs This exposure not only informed his narrative style but also instilled in him a desire to preserve the memories of human actions thereby ensuring that the deeds of both the great and the obscure were not forgotten in the sands of time The Histories is not merely a record of events it is an exploration of civilization itself For readers seeking insight into the formation of Western historical thought and a nuanced understanding of ancient cultures this text is indispensable Herodotus compelling storytelling and profound observations of human nature invite readers to reflect on the complexities of our shared past

An Independent Stance W. J. Keith,1991 Part One of this strongly worded informed and wide ranging collection examines key issues for the future of Canadian criticism Part Two offers new readings of important works by Grove Wilson MacLennan Davies Laurence Hood Wiebe Hodgins and Atwood As W J Keith argues We still have a mission to have our literature recognized as an essential reflection of our national life This is what I mean by retrenchment and consolidation Literature can survive without literary criticism but it cannot survive if it is unknown and unread It is criticism s prime function at the present time to see that it is both known and read with that mature enjoyment which is a combination of emotional sensitivity and humane intelligence As critics scholars editors we shall not be fulfilling our responsibilities or justifying our existence if we attempt anything less Or as Keith modestly observes in his introduction to this collection If this book is of any interest it will be because Canadian literature is an important subject Literary commentators like myself are middle men and should be prepared to admit the fact If this book succeeds in helping readers to appreciate the works of Canadian writers that I discuss and to derive increased pleasure and insight from them it will have served its purpose I can see no other justification for it or

for any other work of criticism
