The Drinking Driver And The Law:

The Drinking Driver and the Law Billy Strachan, 1976 *Policing and Punishing the Drinking Driver* Ross Homel, 2012-12-06 Policing and Punishing the Drinking Driver is at one level about the impact of specific drinking driving countermeasures punishments imposed by courts on convicted offenders and random breath testing in a particular place New South Wales Australia in two particular years 1972 and 1983 At another level however the research reported herein is concerned with general questions of deterrence and with the impact of the criminal justice system on the perception and behavior of a broad cross section of the population In contrast to much of the research in the drink drive field the research questions concentrate on the psychological and sociological processes whereby behavior is altered in the short term as the result of a massive legal intervention or as the result of the routine imposition of legal punishments **An Evaluation of the Impact of Raising the Minimum Legal Drinking Age from 19 to 21 in Wisconsin**, 1988 **The Drinking Driver and the Law** Billy Strachan, 1973 The Drinking-driver Problem United States. General Accounting Office, 1979 **Drink and drug driving law** Great Britain: Parliament: House of Commons: Transport Committee, 2010-12-02 18% of all drivers killed in road accidents are over the drink drive limit In 2007 based on coroners data but only approximately 3% of drivers in the UK are stopped and tested for alcohol compared to the European average of 16% This report calls for the police to be given an additional power to permit preliminary breath tests as part of any designated drink drive enforcement operation Currently the police may stop any vehicle but can only test the driver's breath if there is an element of suspicion There is concern that a reduction in the blood alcohol concentration limit would send out mixed messages but that the aimed for effectively zero limit is too great a step at present Instead concentration should be on stricter enforcement of the current limit and public education It is felt that the success of Great Britain's drink driving policy to date is largely attributable to the deterrent effect of the current 12 month mandatory disqualification penalty and the Committee supports retaining that penalty The committee also calls for the improvement of the detection of drug driving and to strengthen public perception about the likelihood of drug drivers being caught by the police The Government's commitment to install drug screening devices in every police station by 2012 is welcomed though this interim measure should not eclipse the Government's aim over the medium term to develop and type approve a drug screening device for use at the roadside drawing on relevant experience of doing this in the other parts of the world *The Relationship of Alcohol Safety Laws to Drinking Drivers in Fatal Crashes* Robert B. Voas, 1999 *Social Control of the Drinking Driver* Michael D. Laurence, John R. Snortum, Franklin E. Zimring, 1988-02-29 Social Control of the Drinking Driver lays the groundwork for a much needed integration of methods principles and priorities Law criminology biology psychology sociology economics public policy the disciplines concerned with the problem of drinking and driving are many and varied and research crosses national boundaries as well Drawing on fourteen specialists and surveying the situations in nine countries this book presents a comprehensive statement of current

knowledge about drunken driving and its control Back cover Deterrence of the Drinking Driver Hugh Laurence Ross, 1981 *Drinking and Driving Research Findings*, 1993-05 Discusses the Surgeon General's Workshop on Drunk Driving research on and prevention of drinking and driving as well as alcohol drug interactions use of deterrent laws treatment versus deterrence and impersonal prevention Charts graphs black and white photos
