

International Politics: Dynamics of Conflict and Cooperation

Objectives of the class, Two goals:

First: give students an overview of basic concepts and themes that are used in the political analysis of International relations and of their recent theoretical developments. Among those concepts: actor, sub-actor and system in International relations, decision-making bargaining, escalation and crisis, deterrence and stability. The course also intends to cover issues in International cooperation such as alliances and coalitions, collective goods, and international institutions.

Dynamics of International Relations Ernst B Haas, 2023-07-22 In this seminal work Bernst Haas offers a groundbreaking analysis of the nature of international relations exploring topics such as diplomacy security and power politics in a rapidly changing global context Drawing on insights from political science economic theory and sociology Haas offers a nuanced and prescient vision of the challenges and opportunities facing the international community in the 21st century This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

The Hague Conferences and International Politics, 1898-1915 Maartje Abbenhuis, 2018-10-18 Beginning with the extraordinary rescript by Tsar Nicholas II in August 1898 calling the world's governments to a disarmament conference this book charts the history of the two Hague peace

conferences of 1899 and 1907 and the third conference of 1915 that was never held using diplomatic correspondence newspaper reports contemporary publications and the papers of internationalist organizations and peace activists Focusing on the international media frenzy that developed around them Maartje Abbenhuis provides a new angle on the conferences Highlighting the conventions that they brought about she demonstrates how The Hague set the tone for international politics in the years leading up to the First World War permeating media reports and shaping the views and activities of key organizations such as the inter parliamentary union the international council of women and the Institut de droit international Institute of International Law Based on extensive archival research in the Netherlands Great Britain Switzerland and the United States alongside contemporary publications in a range of languages this book considers the history of the Hague conferences in a new way and presents a powerful case for the importance of The Hague conferences in shaping twentieth century international politics

Raimo Väyrynen: A Pioneer in International Relations, Scholarship and Policy-Making

Raimo Väyrynen, 2023-01-03 This book provides a broad overview of Professor Raimo Väyrynen's academic work his role in international research organizations and his contributions to policy debates It offers an interesting review of important political issues during the time span of half a century from disarmament in Europe to the changing relationship between state sovereignty and transnational forces Väyrynen has dealt with the changing agenda of peace and international relations security and the arms race and the world economy This book provides comprehensive analyses of the regional and systemic structure of international relations with the emphasis on conflicts and warfare between nations It argues that while states even smaller ones still matter transnational issues are increasingly important Taking a historical perspective the articles suggest that large scale violence and arms races have been recurrent and cyclical phenomena in international relations These events reflect the deep seated inequalities in the political and economic systems which moreover vary considerably between regions The publication is important reading for any researcher as well as students policy makers and the science oriented public at large Traces the changing agenda of international relations from disarmament and the world economy to the changing relationship between state sovereignty and transnational forces Provides analyses of the regional and systemic structure in international relations with the emphasis on conflicts and warfare Argues that large scale violence and the arms race have been recurrent and cyclical phenomena in international relations Reviews important political issues from peace and conflict in Europe to the changing power relationship in the world

Dynamics of International Relations Walter C. Clemens, 2004-02 Student friendly and professor endorsed *Dynamics of International Relations* is an innovative introductory level core text It compares realist and idealist theories and the paradigm of interdependence against case studies of recurrent problems why wage war how to make peace how to transcend conflict when and where to mediate how to increase GDP but also quality of life and how to organize for peace and promote human rights Against a backdrop of the threat of terrorism Clemens clearly demonstrates both the danger and opportunities inherent in a growing global interdependence

Theory and History in International Relations Donald J. Puchala, 2013-01-11 Theory and History in International Relations is an eloquent plea to scholars of global politics to turn away from the manufacture of data and return to a systematic study of history as a basis for theory. While the modest use of empiricism will always be important, Puchala rejects the logical positivism of the so-called scientific revolution in the field in favor of a more complex, even intuitive, vision of global politics. He addresses the potential uses of history in studying some of the major debates of our time: the Cold War as a struggle between empires, the collision of civilizations, cultural encounters, and colonies in the ancient world, and liberal approaches to the understanding of history and ethical contributions to the dialogue over theory.

The Political Economy of International Relations Robert G. Gilpin, 2016-03-30 After the end of World War II, the United States, by far the dominant economic and military power at that time, joined with the surviving capitalist democracies to create an unprecedented institutional framework. By the 1980s, many contended that these institutions—the General Agreement on Tariffs and Trade, now the World Trade Organization, the World Bank, and the International Monetary Fund—were threatened by growing economic nationalism in the United States, as demonstrated by increased trade protection and growing budget deficits. In this book, Robert Gilpin argues that American power had been essential for establishing these institutions, and waning American support threatened the basis of postwar cooperation and the great prosperity of the period. For Gilpin, a great power such as the United States is essential to fostering international cooperation. Exploring the relationship between politics and economics, first highlighted by Adam Smith, Karl Marx, and other thinkers of the eighteenth and nineteenth centuries, Gilpin demonstrated the close ties between politics and economics in international relations, outlining the key role played by the creative use of power in the support of an institutional framework that created a world economy. Gilpin's exposition of the influence of politics on the international economy was a model of clarity, making the book the centerpiece of many courses in international political economy. At the beginning of the twenty-first century, when American support for international cooperation is once again in question, Gilpin's warnings about the risks of American unilateralism sound ever clearer.
