The Earth Beneath Us H. H. Swinnerton, 2003-01 *The Collected Works* Garrett P. Serviss, 2022-11-13 In *The Collected Works* Garrett P. Serviss presents a fascinating amalgamation of science fiction narratives, essays, and scientific explorations that highlight his innovative literary style. Intertwining imaginative storytelling with emerging scientific concepts of his era, Serviss captures the spirit of late 19th and early 20th century speculative fiction. His writing fuses detailed descriptions with a narrative flair, effectively engaging readers while stimulating their curiosity about the universe and its mysteries. Notable among his contributions is the emphasis on scientific plausibility, a hallmark of Serviss's work that renders his fantastical elements grounded yet visionary. Garrett P. Serviss was not just a writer but a meticulous scholar and a vocal advocate for science. His background in astronomy and engineering provided him with a unique lens through which he explored speculative ideas, setting him apart in the genre. Influenced by contemporaries such as H. G. Wells and Jules Verne, Serviss sought to push the boundaries of human imagination while instilling a sense of wonder about scientific advancement and the cosmos. *The Collected Works* is a must-read for enthusiasts of classic science fiction and anyone intrigued by the confluence of literature and science. Serviss's innovative narrative techniques and visionary ideas make this collection an essential addition to the library of anyone interested in the evolution of speculative fiction.

The Earth Beneath Us Carol Allen, 1991 Scriptural Communion with God; Or, The Holy Bible, Arranged in Historical and Chronological Order in Such Manner that the Books, Chapters, Psalms, Prophecies, &c. &c., May be Read as One Connected History, in the Words of the Authorized Translation; Newly Divided Into Sections; for Families and Individuals; with Introductions and Prayers; and Notes for the Student and Inquirer, 1845 **Mindful by Nature** Tim Drake, Jason Hamilton, 2025-11-15 Connection to the natural world to community and to ourselves is fundamental to our well-being. When we nurture these connections, we thrive, drawing strength from the web of interdependence that sustains life. In an increasingly fragmented and urbanized world, accessing nature and knowing how to engage with it can be challenging. *Mindful by Nature* points the way, bridging nature connection and mindfulness practices. Through personal stories and nature studies, Tim Drake and Jason Hamilton inspire readers to discover their interconnectedness with life. Guided practices offer ways to deepen sensory awareness, face challenges with compassion, and take wise action in our lives. Whether in urban or rural landscapes, readers are invited to engage with nature, cultivating a deep sense of belonging. The teachings emphasize accessibility and playfulness, encouraging readers to reconnect with the living world wherever they are. At its heart, this book is a call to dissolve the illusion that we are separate from nature. *Mindful by Nature* enables readers to rediscover the profound unity between themselves and the natural world and empowers us to become stewards of the Earth.

The Little Gleaner Septimus Sears, 1859 **The Devil You Know** Marie Castle, 2014-11-13 Cate Delacy isn't thrilled to be volunteered as a finder of lost bodies, but she's not immune to Gemini Roskov's grief and righteous desire to claim her father's remains. It means a confrontation with the hostile Council of

Supernatural Beings that controls far too much of New Orleans darker mysteries and personalities Face time with the Council isn't a good idea for Cate what with their dislike of her entire family as well as their mistrust of her untested powers distaste for her unladylike attitude and disdain for her need to know the truth A less direct way must be found Then there is the matter of Cate's feelings for the too sexy and too immortal Jacqueline Slone whose loyalties are as clear as black glass at midnight Something is rising inside both of them and it may well be a lover's touch that reveals a truth no one is expecting Marie Castle A stunning new voice in the supernatural Book Two of the Darkmirror Series *The Black Mirror and Other Stories* Franz Rottensteiner, 2008-12-31 Handsomely equipped with a comprehensive introductory historical essay editor's notes and selected bibliography this distinguished anthology is a model of genre research These previously untranslated stories published from 1871 onward offer reading virtually unknown to most American and many German readers Some authors combine scientific and philosophical issues like Kurd Lasswitz in his witty tale To the Absolute Zero of Existence A Story from 2371 while others as in Erik Simon's 1983 title story pose psychological puzzles involving alien phenomena Though the earlier stories in particular demand painstaking reading all of them repay it with rewarding insights into German and Austrian culture and the many possible uses and misuses of science **Motivating Thoughts of Khalil Gibran** Mahesh Dutt Sharma, 2020-01-01 This book offers a conglomeration of Gibran's simple spiritual ideas in an epigrammatic form while it delves deep into the idea of a man's relation with fellow man and fellow beings the relationship between man and nature and also explores man's relationship with God This book thus elucidates upon the mastery of life unto man
