The Gulf Cooperation Council States Yousef Khalifa Al-Yousef, 2017-02-27 Since the oil boom of the 1970s the Gulf Cooperation Council States have attempted to achieve economic stability and realise their development goals Such efforts have so far been in vain however as these states autocratic governments have closed off their political systems with the support of international allies especially the United States In this timely and exhaustive analysis of the political economies of the GCC since the 1970s to the present Yousef Khalifa Al Yousef examines the factors responsible for the failure of the states to achieve lasting change in development and security Focusing on institutional structures where oil wealth has been confined to the few and the consequences of failed legitimacy at home that has led to dependence on foreign powers Al Yousef charts the consistent disparities between governance and the needs of the local population to the detriment of genuine development Al Yousef concludes that the only way to ensure stability and growth in the region is to dismantle the alliance of autocracy oil and foreign powers Instead democracy and reform are key to ensuring stability in the

Kéchichian, 2016-05-24 After the conservative Arab Gulf Monarchies Bahrain Kuwait Oman Qatar Saudi Arabia and the United Arab Emirates UAE joined forces on 25 May 1981 within the Gulf Co operation Council GCC few fathomed that security requirements on and around the Arabian Peninsula would be so precarious and for so long To answer their search for permanent stability Arab Gulf rulers erected a regional

alliance that sought to integrate internal and regional defences as well as strengthen their existing socio economic ties Several of the monarchies even hoped that co ordination on foreign policy issues over which near unanimity existed could eventually lead to a full fledged union as envisaged in the organisation s founding charter Between 1981 and 2015 these Arab Gulf monarchies experienced major socio political transformations resulting from upheavals throughout the Arab and Muslim worlds The perceived necessity to bring about a full fledged union has come into conflict with entrenched viewpoints from regimes that value traditional military political roles and norms In this new study Joseph A Kechichian provides an evaluation of GCC States military institutions to better evaluate whether a stable alliance is capable of enduring over the next few decades and how civilian leaders perceive the role and influence of their military officers for the task Kechichian raises fundamental questions over internal regional and international threats including an existential challenge emanating from the Islamic revolutionary government of Iran and assesses how GCC professionals may be preparing to tackle them He further elucidates on the best methods to meet security challenges not only to secure political survival but also to determine whether conservative Arab Gulf regimes can flourish outside an effective alliance The volume concludes with an examination of evolving civil military relations in the GCC States
