Tyler Henry to his workshops he was no inventor Talents such as that of Browning were to be absorbed by the Winchester Repeating Arms Company in order to maintain an ongoing superiority in product lines and sales numbers The major weapons manufacturers soon realized that there was no talent equal to that of the Utah frontiersman and in time he was employed by all the top gun makers in the United States and Europe including Fabrique Nationale in Belgium There he was granted well deserved respect and the right to see his inventions find the light of day sought after for so long The breadth of Browning s mechanical brilliance is evidenced by the reality that his designs from the pre World War I era are still in production and many are considered to be among the finest available models more than a century later **Gunsmith Kinks** Bob
