Bansak, 2003-10-09 *Cat People* 1942 and *I Walked with a Zombie* 1943 established Val Lewton's hauntingly graceful style where suggestion was often used in place of explicit violence His stylish B thrillers were imitated by a generation of filmmakers such as Richard Wallace William Castle and even Walt Disney in his animated *Adventures of Ichabod and Mr Toad* 1949 Through interviews with many of Lewton's associates including his wife and son and extensive research his life and output are thoroughly examined *Insurgent Empire* Priyamvada Gopal, 2019-06-25 Much has been written on the how colonial subjects took up British and European ideas and turned them against empire when making claims to freedom and self determination The possibility of reverse influence has been largely overlooked *Insurgent Empire* shows how Britain's enslaved and colonial subjects were not merely victims of empire and subsequent beneficiaries of its crises of conscience but also agents whose resistance both contributed to their own liberation and shaped British ideas about freedom and who could be free *Insurgent Empire* examines dissent over the question of empire in Britain and shows how it was influenced by rebellions and resistance in the colonies from the West Indies and East Africa to Egypt and India It also shows how a pivotal role in fomenting dissent was played by anti colonial campaigners based in London at the heart of the empire Daydreaming and Fantasy (Psychology Revivals) Jerome L. Singer, 2014-06-17 Daydreaming our ability to give to airy nothing a local habitation and a name remains one of the least understood aspects of human behaviour As children we explore beyond the boundaries of our experience by projecting ourselves into the mysterious worlds outside our reach As adolescents and adults we transcend frustration by dreams of achievement or escape and use daydreaming as a way out of intolerable situations and to help survive boredom drudgery or routine In old age we

turn back to happier memories as a relief from loneliness or frailty or wistfully daydream about what we would do if we had our time over again Why is it that we have the ability to alternate between fantasy and reality Is it possible to have ambition or the ability to experiment create or invent without the catalyst of fantasy Are sexual fantasies an inherent part of human behaviour Are they universal healthy destructive Is daydreaming itself destructive Or is it a force which facilitates change and which can even be harnessed to positive advantage In this provocative book originally published in 1975 the product of the previous twenty five years of research the author debates the nature and function of daydreaming in the light of his own experiments As well as investigating what is a normal fantasy life and outlining patterns and types of daydreaming he describes the role of daydreaming in schizophrenia and paranoia examines the fantasies and hallucinations induced by drugs and also the nature of altered states of consciousness in Zen and Transcendental Meditation Among the many topics covered he explains how it is possible to help children enlarge their capacity for fantasy how adults can make positive use of daydreaming and how people on the verge of disturbed behaviour are often unconscious of their own fantasies Advances in scientific methods and new experimental techniques had made it possible at this time to monitor both conscious daydreaming and sub conscious fantasies in a way not possible before Professor Singer is one of the few scientists who have conducted substantial research in this area and it is his belief that the study of daydreaming and fantasy is of great importance if we are to understand the workings of the human mind Aftermaths of War Ingrid Sharp,Matthew Stibbe,2011-02-14 This volume of essays provides the first major comparative study of the role played by women s movements and individual female activists in enabling or thwarting the transition from war to peace in Europe in the crucial years 1918 to 1923 **Translating Pain** Madelaine Hron,2010-10-23 In the post Cold War post 9 11 era the immigrant experience has changed dramatically Despite the recent successes of immigrant and world literatures there has been little scholarship on how the hardships of immigration are conveyed in immigrant narratives Translating Pain fills this gap by examining literature from Muslim North Africa the Caribbean and Eastern Europe to reveal the representation of immigrant suffering in fiction Applying immigrant psychology to literary analysis Madelaine Hron examines the ways in which different forms of physical and psychological pain are expressed in a wide variety of texts She juxtaposes post colonial and post communist concerns about immigration and contrasts Muslim world views with those of Caribbean creolit and post Cold War ethics Demonstrating how pain is translated into literature she explores the ways in which it also shapes narrative culture history and politics A compelling and accessible study Translating Pain is a groundbreaking work of literary and postcolonial studies
